g. To postpone indefinitely.

Such motions shall have precedence in the order in which they are arranged; except that motions to postpone indefinitely and amend do not yield to each other. No motion to postpone to a certain time, to commit or to postpone indefinitely being decided, shall again be allowed on the same day at the same stage of the bill or proposition.

Sec. 8. The Previous Question, Form. The previous question shall be in this form: "Shall the debate now close?"

Sec. 9. The Previous Question: Seconds Required: Vote Necessary: Effect. The previous question shall be in order when demanded by five or more members and must be sustained by the vote of a majority of the elected members, and until decided shall, except as provided in Section 11 of this rule, preclude further debate and all amendments and motions, except one motion to adjourn and one motion to lay on the table.

Sec. 10. Previous Question Undebatable. On a previous question there shall be no debate. All incidental questions of order, arising after a motion is made for a previous question, and pending such motion, shall be decided, whether on appeal or otherwise, without debate.

Sec. 11. Previous Question Ordered: Proponent to Close Debate. When the previous question shall have been ordered on a proposition under debate, the mover, proponent or introducer of such proposition shall be given the right to close the debate thereon.

Sec. 12. Questions of Privilege, What Are. Questions of privilege shall be, first, those affecting the rights of the Legislature collectively, its safety, dignity, and the integrity of its proceedings; second, the rights, reputation, and conduct of members, individually, in their representative capacity only; and shall have precedence over all other questions, except motions to adjourn.

Sec. 13. Reconsideration, Who May Move. When a question has been decided, it shall be in order for any member voting with the prevailing side, or not voting, to move a reconsideration thereof; and if the Legislature shall refuse to reconsider, or upon reconsideration shall affirm its first decision, no further motion to reconsider shall be in order, unless by unanimous consent.

Motion to reconsider cannot be withdrawn without leave. Rule 10, Sec. 3.

Sec. 16. Amendments in Order. When a motion or other proposition is under consideration, a motion to amend and a motion to amend that amendment shall be in order.

Sec. 17. Amendment to Title of Bills. Amendments to the title shall not be in order during the consideration of a bill or resolution on general or select file until the bill or resolution shall have been considered in full.

Sec. 18. Amendment Laid on Table Does Not Carry Principal Measure. When an amendment proposed to any pending measure is laid on the table, it shall not carry with it or prejudice such measure.

Sec. 19. Amendments, Preference in Consideration. When the Legislature is considering bills on either general or select file, after giving consideration to standing committee amendments, it shall give preference to such amendments as may have been on file with the Clerk, with copies on the members' desks for one legislative day in advance, and then to such other amendments as have been deposited with the Clerk, in the order in which they were received by him.

Sec. 20. Amendments, Must Be Germane. No motion, proposition or subject, different from that under consideration, shall be admitted under color of amendment.

Sec. 21. Division of a Question, When. Any member may call for the division of a question, which shall be divided if it comprehends propositions in substance so distinct that, one being taken away, a substantive proposition shall remain for the decision of the Legislature. A motion to strike out and insert shall be deemed indivisible; but a motion to strike out, being lost, shall not preclude an amendment or a motion to strike out or insert.

INAUGURAL MESSAGE OF VICTOR E. ANDERSON, GOVERNOR

To the Members of the Sixty-eighth Session of the State Legislature of Nebraska

Lincoln, Nebraska

Delivered January 3, 1957

Mr. President, Mr. Speaker and Members of the Senate:

We are assembled at this Sixty-eighth Session of the Legislature to discuss the preservation of a sound and efficient self-government at the state level.

We must build for the future. With your permission, I would like to borrow the slogan of a well known television commercial. "Progress is our most important product."

Progress is the American way of life. Without it, a free government cannot survive. We are concerned not just with physical progress, thrilling and exciting though this may be. We are concerned even more with human progress—with maintaining a wise and frugal government, which will restrain men from injuring one another, will leave them otherwise free to regulate their own pursuits and will not impose a burdensome tax load that will take from them the fruits they have so justly earned.

Progress is not automatic; the world grows better because people wish that it should and because they take the right steps to make it better. Progress depends upon modification and change. If things are ever to move forward, someone must be willing to take the first steps and assume the risks. America was conceived as a land in which the individual would be paramount. No matter how productive we may become; no matter how high we are able to lift ourselves in a material way; no matter how clever the ideas advanced by our scientists, our inventors and our social thinkers; we can never afford to lose sight of the fact that individual liberty and responsibility are the bedrock on which the American system was built.

In these troubled times—when the earth shakes restlessly and brave men die rather than draw breath in the stagnant air of oppression—Americans know as never before that freedom is their most precious possession. The events of the past weeks in Hungary have underscored for us the priceless heritage of liberty established for us by our forefathers. We know that we must not lose it.

Genuine progress is spiritual. If what we call material or social progress is achieved at the price of a retreat from spiritual freedom, no matter how this is disguised, it is not progress but retreat.

Progress under our form of free government depends upon an informed electorate. We are fortunate in Nebraska in having facilities whereby our open proceedings with free debate and individual responsibility are promptly and accurately reported to the people. I pay my respect to the press, radio and television and the high degree of integrity they have attained.

Two years ago we started on a program of promoting thrift through efficiency and economy in state government. The legislation which you enacted and our combined efforts in this regard have introduced many good, sound, business methods in our state government which have resulted in substantial economies and savings. Owing to the drouth conditions, of which we are all aware, we must continue our thrift and still maintain efficiency and economy more than ever before if we are to make sound progress. I pledge you my full cooperation and ceaseless efforts to see that we get the most from our tax dollars.

In this age, highways are the lifeline of our economy. During the next few years, we must plan carefully and take all steps necessary to enable Nebraska to match available Federal funds to build needed roads of superior quality adequate for the requirements of modern day traffic.

Let us continue our splendid state-wide mental health program. Two years ago we embarked on a sound state program for mental health. That program has already produced wonderful results.

Until then there had been a constant increase in the number of mental patients in our state hospitals. For the first time, this trend has been reversed. The first year there was a decrease of more than 100 patients, and significant rehabilitation of many other patients. We started a program to meet psychiatric needs in rural communities. We have a complete service for care of emotionally sick children—one of fifteen such services in America.

We have set up training programs needed by all professional people who treat the mentally ill. Hundreds of patients are now receiving treatment from their own doctors. Nebraska's program in this field has received national acclaim.

We have made substantial progress in attracting new industries to our state. Industry has become more and more aware of Nebraska as a fine location. As a result of the cooperation with local agencies, industrial growth in Nebraska during the past two years has reached an all-time high. These new industries have invested or will invest a total of more than fifty million dollars in buildings and equipment. More important, they are furnishing thousands of new jobs for our fellow Nebraskans throughout the state. Nebraska labor, the best in the nation, has been an important factor in attracting new industry to our state. Our laws should be wise and our taxes fair to both labor and industry. It is imperative that our citizens be employed in gainful occupations if we are to have a truly sound economy.

Our mineral resources are fast becoming of more importance in our economy. Nebraska oil production has increased from less than 600 barrels per day in 1948 to more than 45,000 barrels, with an annual value of forty-four million dollars. To this may be added more than two million dollars annual value of natural gas production. During the first eleven months in 1956, Nebraska was fourth in oil well completions among fourteen western states. Petroleum is a prime need in our civilization and a substantial contributor to the wealth of Nebraskans. Our laws and their administration should be conducive to conservation of this vital natural resource and to the prevention of waste in its production and processing.

Agriculture is Nebraska's largest and most important business. It is the basis of our economy. Agriculture in Nebraska has had its difficulties with low prices, drouth and increased cost of materials the farmer must buy. The legislative and executive branches of our state government have always been responsive to the needs of agriculture and it is a part of our progress that we not relax our determination to enact wise legislation at this critical time in our economy.

During the past two years we have done everything possible to work closely with the Federal Government to bring drouth relief to Nebraska agriculture. This has been accomplished by presenting the drouth picture to Federal officials first-hand. It will be my privilege very shortly to confer personally with President Eisenhower in the hope that even more can be done to aid the farmers of the State of Nebraska in these critical drouth times.

To relieve the burden of unjust taxation, we have made outstanding progress in our fight for equalization of assessments. Especially as between counties, assessment equalization is better than it has ever been. This does not mean, however, that we can relax our efforts to strive constantly to improve our tax structure. I am sure that the Legislature, in its wisdom, will find that delicate balance between the needs of our people on the one hand and their ability to provide tax funds without injury to the economy of our state.

I recommend that you propose a constitutional amendment lowering the voting age in Nebraska to 18 years. You recall President Eisenhower's first message to Congress, that since our citizens between 18 and 21 in time of peril are summoned to fight for America they should participate in the political process which produces this fateful summons.

I believe that the people of Nebraska should have the opportunity of passing upon a constitutional amendment to extend this priceless privilege to our young people.

The process of getting the most out of each tax dollar, in my opinion, can be strengthened. I recommend that we give careful consideration to the following:

1. Control expenditures by a State Comptroller.
2. Reducing certain building levies.
3. Transportation economy through car-pool facilities.
4. Better supervision of building fund expenditures.
5. Central accounting system.

My final recommendation has to do with the University of Nebraska Medical College in Omaha. Recently, two hospital wards containing 34 beds were closed. I feel the operation of these two wards is important to the Medical College and to the indigents of our state. For that reason, I recommend you give consideration to the transfer of $100,000.00 from the building fund of the University of Nebraska College of Medicine to the University's general fund, to be earmarked for the reopening and continued operation of these two wards for the balance of the biennium.

At the close of the 1955-57 biennium there will be an unexpended balance of approximately $1,400,000, and in the recent budget hearing I was advised there were no immediate plans for new buildings at the Medical College.

We in Nebraska are not a wealthy people; we have been taught thrift and economy. Our combined efforts should result in legislation and an administration which will not burden our people beyond their ability to pay. By working together it should not be necessary to increase the mill levy and we will still make the progress that is needed. My budget message will contain a complete program and recommendations toward this end.

May we have Divine Guidance in our deliberations and actions.

During the year, July 1, 1955 to July 1, 1956, the Real Estate work of the Douglas County Tax Appraisal Board has been confined to the appraisal of farm lands and the urban areas of East Omaha, Kings Lake, Irvington and a resurvey of Millard.

In farm lands we have made a report on the valuation of each 40 acres as is required by law. We have a description as to the type of soil, contour, and other conditions affecting valuations on each parcel. We also have a description and valuation of each significant farm building.

We found that farm lands were assessed at a relatively high value and our primary result in the revaluation was to equalize values from parcel to parcel and from one section of the county to the other. Except in a few areas we were not able to note any trend of valuations from the assessor's figures. The two areas in which we made radical changes were in extremely hilly and rough land in Florence precinct and in some parts of Valley precinct. In the former instance we reduced many land valuations to one third or one half of the former valuations. This is justified by sales figures. Some of the lands in Valley precinct had in years gone by been considered too low and too wet for either stock raising or proper cultivation. This condition has now changed and parts of this area are probably the best of the County. Some farm lands along our west and north main highways are being held and sold at speculative prices for sub division purposes. On these areas we had to take into consideration some of the speculative values.

We found many sets of improvements which were either grossly undervalued or not shown on the assessment rolls; likewise we found some non-existing improvements being taxed.

In East Omaha, Irvington and Kings Lake the former valuations on improvements were extremely low in comparison to either rentals or to recent sales. This condition was true in most of the older residential sections of Omaha prior to the time they were revalued by the TAB.

We have not made any effort to check railroad properties, which are marked "terminal", nor properties which are shown on the tax rolls as "exempt". We believe that an effort should be made to check the justification of these classifications for all properties.

The following report reflects the results of the work done by the Douglas County Tax Appraisal Board, Business Personal Property, during the year 1955 and the first six months of 1956.

The experience of this Board is convincing that a year to year examination and review of the property of business firms is necessary if equality and uniformity is to be attained in assessments. In view of the amount of property that is revealed to the assessment authorities, because of constant examination and review by this Board, and since this Board is terminating this work for lack of appropriated funds we would like to recommend the following:

1. The attendant costs of revealing this type of property is negligible in view of the results. We, therefore, recommend that funds be provided for the continuation of this work.

2. The Legislature should consider legislation that would provide for all government sub-divisions in the letting of contracts and in the purchase of goods to require and have submitted the

balance sheets of all such firms seeking to do business with the governmental subdivisions; this for the purpose of comparing such balance sheet with the firm's tax return, and use this record as an element in allotting contracts and the purchase of goods.

Respectfully submitted

Guests Escorted to Rostrum

The appointed committee escorted to the rostrum Governor Anderson; John A. Volpe, Federal Highway Administrator; Robert B. Crosby, former Governor; William S. Macintosh, District Engineer; and L. N. Ress, State Engineer.

Introduction—Mr. John A. Volpe

Governor Anderson made the following introduction:

It is my pleasure to present to you this morning, Mr. John A. Volpe, Federal Highway Administrator from Washington, D. C., who will address us on the Interstate Highway System and the Federal-Aid Highway Program.

Mr. Volpe, a devoted public servant, was appointed Federal Highway Administrator by President Eisenhower in October 1956, and will serve as interim administrator until the United States Senate confirms the nomination of Bertram D. Tallamy.

Mr. Volpe, head of one of the country's leading construction firms, resigned early in October as Massachusetts' commissioner of public works to return to private business, but at the President's request deferred his business plans to accept the national appointment.

Appointed commissioner of public works for Massachusetts by Governor Christian A. Herter in 1953, Mr. Volpe supervised one of the most important highway construction programs in the state's history. He was one of five engineers to serve on an advisory committee to Congress in the preparation of the Federal-Aid Highway Act of 1956.

Gentlemen, I am proud to present Mr. John A. Volpe.

Address by Mr. Volpe

HIGHWAYS WILL MAKE HISTORY

It is a rare privilege to address such a distinguished gathering. I am, indeed, fortunate to discuss in the dignity of this Legislative Chamber a subject which concerns the welfare not only of this great State, but of the entire nation.

Nothing better symbolizes our unity of purpose, our pioneering spirit, than the Federal-Aid Highway Act of 1956. This bipartisan legislation, enacted during an election year, launched the greatest public works program ever undertaken anywhere or at any time throughout the world. It is concerned with people, not politics, nor partisanship.

Today highway transportation plays such a vital role in our daily lives, it is such a basic factor in our economic growth and involves the public safety to such an extent that the vast road-building program can properly be called a new design for living for all Americans.

The figures alone tell an impressive story—24.8 billion dollars of federal funds for the national system of interstate and defense highways. This amount, plus some 2.6 billion dollars contributed by the states, will provide the money for a 13-year construction program designed to modernize a 40,000-mile network connecting 90 percent of all cities above 50,000 population and linking business and industrial centers from Maine to California.

The concept itself is revolutionary. It is essentially the "Grand Plan" which President Eisenhower called for in his urgent message to the 1954 Governors' Conference. For the first time we have set out to provide a complete nationwide highway network built to standards which reckon with future traffic demands—20 years from now, when more than 100 million cars, trucks and buses are anticipated compared with 65 million today.

Measured in distance the interstate system includes only 1.2 percent of our total road and street mileage, but it will carry 20 percent of all traffic. This traffic will move at expressway speeds. It will flow into and around large cities over safe, divided highways of 4 to 8 lanes, protected by carefully planned access. Equally important, these great trunk lines will serve countless smaller communities, both directly and through interconnecting routes. This network will invite business, commercial and industrial growth on a large scale. It will transform raw land into thriving communities. It will bring farmers and ranchers closer to their markets.

To project these patterns of growth and progress on a national scale, suppose we look at the annual authorizations for the interstate system during the next two fiscal years. For 1957 the amount is $1,175,000,000, for 1958 it rises to $1,700,000,000.

By comparison, the total amount of federal funds authorized specifically for the interstate system prior to the 1956 Act was 400 million dollars.

The scope and impact of the interstate program can hardly be exaggerated. Moreover, far from limiting the other primary and secondary roads in the states, with the Federal Government paying 90 percent of the interstate system costs, more funds generally become available for the construction of other primary and secondary roads.

Quite apart from the sustained economic uplift promised by the interstate program, the 1956 bill increased federal funds for all federal-aid systems. By earlier standards the sums involved are very large. Prior authorizations—primary, secondary and urban—were increased by 125 million dollars to total $825 million for the fiscal year 1957. Sums of $850,000,000 and $875,000,000 were authorized for the fiscal years 1958 and 1959, respectively.

In summary then, the 1956 Act will make more federal-aid highway funds available to the states in the first four years of the new program than in the preceding 40 years.

To finance this greatly-expanded federal aid, Congress increased gasoline, oil and other automotive taxes. These taxes are now channeled into a newly-created National Highway Trust Fund, which assures that the money will be on hand when needed. It is estimated that the additional taxes will cost the average passenger car owner about nine dollars more every year.

Some states also will have to find additional funds to meet the matching requirements of the new program. Obviously this is a problem which each of the states must meet in its own way. The method or combination of methods chosen will reflect existing revenues and tax structures and the equity of present highway user charges—gasoline taxes, license fees, registration rates, and so on.

Only seven states have more mileage of rural roads than Nebraska with its 99,355 miles of state and local roads. And the State also is responsible for maintaining and improving nearly 10,000 miles of these rural roads as part of the state highway system. You have a real problem.

I understand, however, that less than 400 miles of Nebraska's state highway system are presently off the federal-aid systems and hence ineligible for improvement with federal funds.

Federal-aid matching requirements in your State for the fiscal years 1956, 1957 and 1958 apportionments are 13.2 million dollars, 16.8 million dollars and 16.8 million dollars, respectively. Thus, as you know, if the federal program in your State is to be accelerated to the level of current apportionments, it will be necessary for Nebraska to raise at least an additional 5 to 6 million dollars annually. This probably could be accomplished by a one-cent increase in the present 6-cent gasoline tax, or by a reassignment of the present tax revenues now allocated to local governments, or by some combination of both.

I am aware that on November 6, by a referendum vote of 312,000 to 214,000 the people of Nebraska rejected a ton-mile tax measure which would have provided the additional revenue required for matching funds.

Let me hasten to add that I do not intend to tell the Nebraska Legislature, or any other legislative body, what taxes they should impose to raise the highway improvement funds which will be needed. The subject does not invite ready-made answers.

I do want to point out, however, that the Bureau of Public Roads, together with the State Highway Departments, the Highway Research Board, and industry have undertaken the most thorough road test ever proposed—the so-called AASHO Road Test Project in Illinois.

For many years motor vehicle tax policies have taken into consideration the proportion of road construction costs caused by different types of vehicles. Though a series of tests have been carried out to determine these costs for various types of pavements, a great deal of information is still needed in order to furnish an equitable basis for established user charges.

The AASHO test is expected to give many answers. It will determine the relative effects of a wide range of vehicles on a variety of pavement types and thicknesses. The project is planned to provide results having widespread application in the regulation of loads for the protection of existing highways and bridges, as well as to design standards for future highway facilities. This information will be of great value in the improvement of the interstate system.

The Highway Revenue Act of 1956 brings this even closer home. Section 210 of this Act directs the Secretary of Commerce to inquire into the equity of taxation for the support of the federal highway program, considering both the costs occasioned by the travel of various vehicle types and sizes, and the benefits derived from the federal-aid programs. While this study is a responsibility of the Bureau of Public Roads, the State Highway Departments are cooperating fully.

Undoubtedly these two studies will be of great help to Congress and the states in shaping tax measures for highway purposes.

But your problem, like that of many other states, is an immediate one. Time is of the essence! You cannot wait and let your highway program lag until the Illinois road test is completed some time in 1959. You cannot wait until the Bureau study report is made to the Congress—"Not later than March 1, 1959."

Certainly the great State of Nebraska, with its mounting traffic demands, can ill afford to allow federal funds from the interstate program, or any other federal-aid programs, to lapse because they were not utilized within two years after the end of the fiscal year for which they are apportioned.

Yet here is the picture for Nebraska as of December 27, 1956. All of the federal funds apportioned for the fiscal year 1954 have been covered by agreements. For 1955, all primary, secondary, and urban funds have been covered, but out of nearly $489,000 apportioned for the interstate system less than $19,000 has been obligated to specific projects.

For the fiscal year 1956, which ended on last June 30, all primary and secondary funds were picked up, but nearly a million dollars apportioned for urban highways and more than $2,400,000 for the interstate system remain uncovered.

All told, including apportionments for fiscal years 1957 and 1958, your state now has unobligated balances of federal highway funds totaling 65 million dollars—two-thirds of this sum is for the interstate system.

In addition, on or before July 1, 1957, approximately 28 million dollars more will be made available for the interstate system and 14.5 million dollars more for other federal-aid programs in the State of Nebraska.

When the new estimates of the cost of completing the interstate system have been made, your State will know approximately the amount of money it will receive each year during the entire 13-year program. The Congress also has declared its intent to increase the amount available for other federal-aid programs, perhaps by as much as 25 million dollars annually. Thus primary roads and farm-to-market roads certainly are not going to be forgotten.

Many states already are in a position to take advantage of the opportunity for a truly long-range highway planning program, as well as a long-range financing plan which the Congress has provided for the first time.

As of December 31, 1956, six states had already taken up their entire 1957 apportionment for the interstate system and are now working on their 1958 apportionments.

Piece-meal planning, piece-meal financing, piece-meal construction are costly ventures. Thanks to the 1956 Act, it now seems entirely appropriate for this Legislature, and all legislative bodies of the 48 states, to give the state highway departments the tools they must have to carry out the job which Nebraska and the other states so desperately need to get done—not on a piece-meal basis, but on a carefully planned, long-range basis.

Highways today are everybody's business and they are big business. No corporation operating on the scale of a State Highway Department would fail to properly house and equip its employees. Nor would it fail to call attention to its products or the services it renders. Highways serve every man, woman and child in this great country of ours.

No one likes the idea of higher taxes. It is quite understandable that individuals and groups who take a short-range viewpoint may object to paying even a small increase at the gasoline pump. But they overlook the permanent and far-reaching benefits that better highways bring. The highway users of Nebraska are going to pay a three-cent federal tax for every gallon of gasoline they buy—this comes to about 15 million dollars a year. If the state does not provide the necessary funds to match the federal program, it only means that part of the three cents they are paying will be used to finance federal-aid highways in the other 47 states.

Under the able leadership of Governor Herter, the Massachusetts Legislature last year adopted a 300 million dollar highway program. Two-thirds of the sum was provided through a bond issue, for which purpose the gasoline tax was increased by one-half cent a gallon. This means a yearly increase of about $3.50 for the average motorist—less than one cent a day.

By this investment Massachusetts' citizens will enable their state to match the federal program for a 4-year period and at the same time undertake necessary construction on roads outside the federal-aid system.

Let me give you a concrete example of how such an investment pays off. Since the completion of the northerly half of Massachusetts Route 128 in 1952, upwards of 150 million dollars worth of new industrial construction has been located along this route and 10,000 new jobs have been created.

The tragic toll of highway accidents during the recent Christmas and New Year's holiday weekends cast a sombre shadow over the entire nation. In Nebraska death claimed 5 victims. Since the end of World War II, the American people have suffered more deaths from highway accidents than from the battles of World War II and Korea combined. The picture is indeed a sad one.

Can we as public officials look on this ghastly destruction of human life and feel that we are properly carrying out our duty if we fail to provide our highway people with the money and tools necessary to remove the many hazards which exist in our highway plant today? Surely it is not asking too much to provide financing at a state level for at least a four-year period, a period which will put a solid foundation under the greatest long-range building program ever undertaken in time of peace.

I am certain that if your State Department of Roads and Irrigation, under the able direction of your State Engineer, L. N. Ress, is given the money and the other essential tools, such as necessary personnel, properly compensated, they will carry out this program with efficiency and dispatch.

Under the 1956 Act the interstate system must be built to modern design standards, with full control of access. Overpasses and cloverleafs will eliminate intersections and random access. There will be no railroad crossings at grade. Motorists and commercial vehicle operators will travel on 4- to 8-lane divided highways, except in the lightly-traveled stretches—and even in those areas a minimum 150-foot right-of-way is to be secured for a double-track highway when future traffic warrants. This network actually will make it possible to drive across the continent without encountering a stoplight.

Four out of five Americans now drive to work. Millions will soon escape the dreaded daily traffic jams as they go to and from the job over tomorrow's expressways.

We are truly a nation on wheels, for more than 70 percent of the world's passenger cars and half of all the trucks are to be found on U. S. highways.

Members of Congress recognized all of these implications when they passed the 1956 Act. They were concerned with the long-range growth and development of the entire country. And they fully realized that free-flowing traffic is essential to such growth. The whole concept of the interstate system demands planned access on our great traffic arteries. Here are some of the benefits which planned access assures.

It permanently reserves road right-of-way for the movement of traffic and thus protects the highway investment. It cuts traffic accidents by two-thirds. It offers the maximum in economical, efficient motor vehicle operation. It adds tremendously to the nation's defense and survival potential in time of war. It opens the way for long-range state and community planning which will tie together not only highway planning and financing but the many community betterments that are needed.

We are a growing nation. Whether these growth patterns will create new problems of urban congestion or whether they will encourage orderly development depends on the planning that is done today—not 10 years from now.

That is why I again urge all of the states to seize this opportunity—to plan tomorrow's highways today.

Under the 1956 Act the State Highway Departments will continue to initiate projects, prepare plans, and specifications, let contracts, acquire right-of-way and maintain and operate federal-aid highways. But this work will still be done under the general guidance and supervision of the Bureau of Public Roads.

This 40-year-old relation must be improved and strengthened to carry out the new program, but the fundamental basis of Federal-State cooperation is well defined and soundly established.

Today we in the Bureau are concerned over the adequacy of some state engineering staffs and the real danger of their losing competent men to better paying jobs. One answer to this problem is a careful review of salary scales and assignments—including those in your own Department of Roads and Irrigation.

I also want to urge that the standards adopted by all states at least conform to the minimum standards adopted by the American Association of State Highway Officials for the design and construction of all federal-aid projects. This is essential to insure continued usefulness of the completed work.

On the Interstate System it would be surprising indeed to find any state asking for lowered standards, when the Federal Government is putting up 90 percent of the matching funds. Moreover, such compromises would be doubly dangerous for a single state—since tourists and other long-distance travelers would find it comparatively simple to bypass such inadequate highways.

I understand that your state has authority under section 39-1320 (1) of the Nebraska Statutes to acquire rights-of-way for future highway construction, but no provision has yet been made for establishment of a revolving fund. To me, the great savings possible justify any state's setting up a special revolving fund for the definite purpose of advance acquisition whenever the State Highway Department determines that immediate acquisition will prevent much higher future costs.

One California highway official, where such a fund is provided, calls it "undoubtedly the single greatest economy that can be made in the highway plant investment."

Those states which do not have authority to close local roads intersecting the interstate system where separations are not economically warranted, may find it desirable to vest such authority in their Highway Departments. I understand that one of your Legislative Committees now has this matter under consideration.

I am happy to learn that Nebraska is arranging for the installation of electronic computers and other devices for saving engineering manpower. It is good to know that the State is making use of aerial photogrammetry and owns an aeroplane now being used for location and preliminary surveys.

Your state is certainly to be commended for the careful consideration given to traffic needs and economic factors in selecting the final location of the interstate system. I realize that in the Omaha and Lincoln areas the state found it necessary to use special engineering services. Undoubtedly consulting engineers can and will be of great help in launching and carrying forward the new highway program. They have special technical skills which may be much needed in certain situations. They cannot, however, take over the responsibility vested in the State Highway Departments by Federal law.

This law requires a state accepting federal aid to have adequate powers and be suitably equipped and organized to fulfill these duties to the satisfaction of the Secretary of Commerce. Today, with a new 13-year program unfolding, no state can afford to slight or handicap its participation in the "Grand Plan." The stakes are too high.

One last note of commendation. I am advised that your state has now submitted for approval by the Bureau of Public Roads the final location of all interstate system routes in the State of Nebraska . . . . Congratulations.

Necessarily federal action is only the beginning. Mere money cannot build a highway system. The 1956 Act set the stage for a tremendous drama of economic growth and social betterment. But please remember that this is a 13-year program and the bill itself shifts the action where it belongs—to our states and communities, to the business, civic and Legislative leaders who will carry out the "Grand Plan."

With confidence that in your deliberations you will be ever mindful of the tremendous potential in the highway program, I urge that you take such action as will be necessary to reap its many benefits. To each of you, the opportunity is now to make a lasting contribution to the convenience, security, and economy of the citizens of Nebraska and of the Nation. Each of you has a decision to make. Let not this opportunity pass. The time for action is now.

Statement by the Governor

Mr. President, Mr. Speaker
Members of the Legislature:

You will recall that in my Inaugural Message to your honorable body I recommended the transfer of $100,000.00 from the building fund of the University of Nebraska College of Medicine to their general fund, for the express purpose of reopening two wards at the hospital. These two wards were recently closed for lack of operating funds.

I made this recommendation because it had been stated that it would take $100,000.00 to operate these two wards for the remainder of this biennium.

Yesterday, in order to secure first-hand information in regard to the real needs of the Medical College, I met with Chancellor Hardin, Dean Tollman and his staff and toured the Medical College in Omaha. As a result of this meeting, it was agreed that the two wards, consisting of 34 beds, could be reopened February 1, 1957, for the remaining five months of this biennium, at a cost of $75,000.00.

I shall, therefore, appreciate your early consideration of my recommendation that $75,000.00 be transferred from the University of Nebraska College of Medicine building fund to their general fund, and request that you give priority to this measure. Further, I shall appreciate the Chairman of the Budget Committee introducing this measure which I have had prepared.

Let me assure you that I shall be happy to discuss the matter further, in the event you have any questions.

Standing Committee amendments found in the Legislative Journal for the Eighth Day were adopted.

Mr. Beaver offered the following amendment, which was adopted:

1. Amend page 50 of the bill, by inserting a new section immediately after renumbered section 50, and to read as follows:

"Sec. 51. That section 70-609.01, Reissue Revised Statutes of Nebraska, 1943, be amended to read as follows:

70-609.01. Whenever the State Engineer shall determine, after investigation and hearing, of which ten days' notice shall be given to the district by registered mail *or certified,* that any district operates or is interested by ownership, lease or otherwise in the operation of electric power plants, distribution systems, or transmission lines in more than fifty counties in the state, he shall be authorized to enter an order directing that further operation of the district shall be conditioned upon the amendment by the district of the petition for its creation to provide for a board of directors consisting of seven members, to be reduced or increased to that number and to be elected in the manner provided by section 70-614.01. Failure to file such amendment, within thirty days after receipt of a notice to do so sent by the State Engineer, shall constitute a forfeiture by the district of all right to transact further business in this state, and it shall be the duty of the Attorney General to forthwith institute suit, in the district court of the county where the principal place of business of the district is located, to liquidate its assets and wind up its affairs through a receiver appointed by the court."

2. Renumber the following sections of the bill accordingly.

3. Amend page 53 of the bill, old section numbered 62, now known as section 65, line 8 by inserting "70-609.01," before numbers "72-235".

REPORT OF JUDGES OF THE SUPREME COURT
as to
DEFECTS IN CONSTITUTION AND LAWS OF NEBRASKA

To the Members of the Sixty-eighth Session of the Nebraska Legislature:

Article IV, section 23, of the Constitution of Nebraska, provides for a report of the Judges of the Supreme Court of defects in the Constitution and laws. The form in which this report shall be made is not specified in the Constitution.

The Legislature, by statute, has implemented the constitutional provision. It has placed on the Revisor of Statutes the duty to prepare this report under the supervision and direction of the court, and to draft in the form of bills proposed legislation to carry out the recommendations of the court.

As a part of the process of ascertaining defects in existing laws, the Revisor of Statutes has requested and encouraged any person who discovers any error or inconsistency in existing laws to report such defects to him. The Revisor of Statutes then investigates the report, and if there is merit in the suggestion drafts a bill to correct such defect.

This year the Revisor of Statutes has prepared and is submitting twenty-five bills to correct errors and inconsistencies, arising either from defects discovered by the Supreme Court in its work or reported to the Revisor of Statutes.

Two years ago the Legislature authorized the reissuance of Volume II of the Revised Statutes, 1943, in two volumes and of the Index. The sum of thirty-five thousand dollars was appropriated by the Legislature for that purpose. The reissuance of Volume II in two volumes, II and IIA, was accomplished. The reissuance of the Index was not completed. The Revisor of Statutes desires to complete the reissuance of the Index during the ensuing biennium. The only authority deemed necessary for that purpose is a reappropriation of the unexpended balance of the amount originally appropriated.

Respectfully submitted,

(Signed) Walter D. James
Revisor of Statutes

BUDGET MESSAGE

HONORABLE VICTOR E. ANDERSON TO THE LEGISLATURE OF NEBRASKA SIXTY-EIGHTH SESSION

January 17, 1957

Mr. President, Mr. Speaker,
Members of the Legislature:

Two years ago when I presented my budget message, I made the statement that my proposed budget was not the final word—and was not so intended. Rather, it was a framework to be examined and re-examined in an effort to adopt a budget that would be adequate and enable every department or agency of State government to perform the duties imposed upon them by law.

Let me emphasize that same thought to you today in presenting a proposed budget for the coming biennium, and assure you of my willingness to cooperate in every respect, pledging the assistance of the personnel in all departments under the jurisdiction of the Governor's office. I am confident that you will have the same wholehearted cooperation of all elected Constitutional Officers.

The directors and superintendents of the respective departments of government, and the elected Constitutional Officers are to be commended for their cooperation and help in the preparation of my proposed budget. They were courteous and sincere and even though our minds may have differed, our relations were, and remain, most friendly.

I am confident that these men, you as Senators and myself, as Governor, can work together and jointly strive for the abatement of our own personal desires and wishes, seeking adjustment of our state problems and needs so that our economy and sound government may continue to progress.

There may be some disagreement over methods, but that is the American privilege. Our ultimate objective or goal must be to keep what we have; to retain what we have achieved and to carefully determine what we believe to be the functions of government that will give the best service to the people we represent. This must be done without taxing them beyond their ability to pay.

In your capacity as Senators, with a knowledge of the needs and economy of the respective districts which you represent, I am sure you will carefully scrutinize every activity of our government, evaluating its needs and the services it renders to the people. It is your decision that will control. You will require adequate proof of the needs of any activity of government before granting an appropriation. In so doing, you will be following the pattern sagely advised by Thomas Jefferson when he was speaking of a free government. He said:

> "The same prudence which in private life would forbid our paying our money for unexplained projects, forbids it in the disposition of public money. We are endeavoring to reduce the government to the practices of rigid economy to avoid burdening the people."

In the preparation of this proposed budget I have attempted to emphasize what I believe to be the taxpayer's position and what I believe will be for the better interests of Nebraska—that there should be no increase in the tax on property. An examination of the budget will reflect such a result. Permit me to refer briefly to some of the recommendations.

HIGHWAYS

I recommend adoption of the Highway Department budget for our State and Federal highway programs, which will carry into effect the programs for the entire highway system. This is a balanced program, taking account of the needs of our people and treating fairly all rural areas as well as the cities and towns.

We now have two systems of highways, the Interstate and our regular State Highway System. I recommend that our present highway user funds be used for construction and maintenance of our present State Highway System in Nebraska.

The Interstate Highway is being built primarily for the defense of our country and for that reason the Federal Government is matching $9.00 to every $1.00 of State money. It will be necessary for you to provide additional funds to carry out the Interstate Highway System in Nebraska.

HIGHER EDUCATION

This subject has been one of ever increasing importance in our state and nation. It is important to the welfare of all the people in Nebraska. In the past, the Legislature has recognized the need for a fine school; it has appropriated the necessary funds, and the University of Nebraska has made real progress as a result.

The following figures indicate the growth of appropriations from tax funds:

In 1949 $ 8,000,000;
in 1951 12,000,000;
in 1953 15,000,000;
in 1955 17,800,000;
and, in 1957, $21,000,000 recommended by the Governor.

As a former member of the Legislature and now as Governor of Nebraska, I have been and am now vitally concerned that the State of Nebraska should have a good, first class university. It is my opinion that the quality of a school is determined by the quality of its teachers and not by the magnificence of the structures in which instruction is conducted. Therefore, I am recommending an increase in the budget for the University of Nebraska of $3,200,000, for a total appropriation of $21,000,000. With this sum I feel that the progress of the University will be sound. After many conferences with University officials, I am convinced that this sum will maintain an excellent faculty and will provide adequate physical facilities. This sum will provide recommended salary increases for the faculty and the entire staff, and provides approximately $800,000 additional for general needs.

Concern has also been expressed for the welfare of the State Normal Schools. The following figures indicate the growth of appropriations from tax funds in this instance:

In 1949, $2,025,000;
in 1951, 2,789,000;
in 1953, 3,019,000;
in 1955, 3,624,000;
and, in 1957, $4,400,000 recommended by the Governor.

This recommendation will, I am confident, enable them to continue their progress on a sound basis.

BUILDING LEVY

The 1947 Legislature created a 10-year institutional building fund and provided for a special levy of 1.1 mills on all tangible property plus ⅓ of the State's share of intangible taxes. The proceeds of the special levy were allocated on a percentage basis to the University of Nebraska, the State Board of Control, State Normal Schools, and the Military Department. At that time, your attention was called to an emergency relative to the needs of the institutions, arising from the backlog of needed construction and maintenance which accumulated during the depression years and the years of World War II when materials and labor were not available for building or maintenance projects.

Your legislative committee, after careful study, recommended continuance of such a special levy for a further 10-year period, but suggested that it be reduced to ¾ of a mill and the proceeds be allocated on a percentage basis to various institutions.

Agriculture and industry in Nebraska are experiencing serious difficulties because of the drouth, and I respectfully recommend that for the coming biennium the special levy be reduced to ½ mill for the following reasons:

1. The greater needs of the Board of Control have been taken care of and it is my opinion that no additional building facilities will be needed for the next two years.

2. The University of Nebraska is studying a program relative to the daily use of classrooms, laboratories and other facilities which will increase classroom capacity by about 25%. This will help to reduce the immediate need for building additional classrooms during the next two-year period.

3. The immediate needs of the National Guard Armories have been taken care of and no additional building facilities will be needed for the next two-years.

I further recommend that the Legislature create a committee to determine the use of the institutional building fund, and in order that you might have the full details relative to a committee of this nature and its duties, I have had a bill drafted for introduction.

UNIVERSITY COLLEGE OF MEDICINE AND HOSPITAL BUILDING FUND

In 1953 the Legislature authorized a property tax levy of ¼ mill, to be used as a temporary supplement to the other building funds available for the erection, remodeling and equipment of buildings and plants for the University College of Medicine and Hospital.

The needs have been met to the extent that the College of Medicine is fully recognized and accredited. There will be close to $800,000 dollars available in this biennium from collections of the tax levied in 1956 and prior years. This can be used for the original purposes intended.

Plans for further development and administration of the functions of the College of Medicine and the Hospital should be studied and re-examined. Until further plans of operation are finally determined it is my feeling that the funds supplied by the taxpayers from this levy can best be used for other needs of the State.

Therefore, I recommend that the further levy of ¼ mill for the University College of Medicine and Hospital be temporarily discontinued.

TEACHER RETIREMENT PROGRAM

For many years our teacher retirement program was financed upon a pay-as-you-go basis. In 1953, the Legislature placed this financing on an actuarial basis. The estimated need to fund the program properly was placed at ½ mill. The levy was set at this amount in order to build up the fund to take care of the deficiency arising from the years we were on the pay-as-you-go basis and to establish a sum to make the program sound. It was understood at that time that if experience disclosed more or less than ½ mill was needed, this mill levy would be adjusted accordingly. Studies now show that the ½ mill levy is bringing in more dollars than are required to fund the program properly, but that ⅓ mill would be sufficient.

Therefore, I recommend that you reduce the mill levy for the retirement program to ⅓ mill. This can be done and still keep the fund sound.

This matter has been discussed with the assembly of the Nebraska State Education Association, who, in their letter of December 27, 1956, state a preference for retention of the ½ mill tax as the preferred method for the support of the Nebraska School

Retirement System, but offer the following alternate, which I shall quote from their letter of December 27th:

> "As an alternate proposal the NSEA would not object to, and would probably support, a reduction in the tax from one-half mill to one-third mill, providing that this tax is enacted for a period of ten years to insure financial stability of the system. If the tax were reduced to one-third of a mill, it must be understood that it would take nearly thirty years instead of twenty years to fund the system. This is not objectionable, as the security of the system is as secure as the taxing power of the State of Nebraska. The NSEA would support this alternate proposal for the following reasons:
>
> 1. It would mean a reduction in state taxes which seems to be necessary at this time because of agricultural and economic conditions in some parts of the state.
>
> 2. It would meet current liabilities and would place approximately $500,000 annually in annuity reserve for future liability.
>
> 3. A tax for a ten-year period would give the members assurance that the system would be funded in the future and that retirement benefits for those now teaching would be guaranteed."

STATE SOIL CONSERVATION COMMITTEE

We are all very mindful of the value of soil and water as the greatest of our natural resources and the betterment that results from wise conservation practices. I have recommended no change in the appropriation of the last biennium for the State Soil Conservation Committee. The Committee recently informed me that they would offer suggestions to you for certain revisions. I shall gladly join with you in evaluating the desirability of changes that may be properly reflected within the scope of our budget.

MENTAL HEALTH

Nebraska has a fine mental health program. The Psychiatric Unit in Omaha has been recognized as one of the best in the nation. The Board of Control, in submitting their budget, reported that although they had included some of the funds requested for the mental health program they had requested a detailed report to be submitted by Dr. Cecil Wittson, State Director of Mental Health. Dr. Wittson states that he will have the report ready to submit within the next two weeks. At that time I would appreciate having him appear before this body in order that together we may evaluate the report and determine the best approach to enact the program he may request.

In closing I would like to point out that even though we are facing some drouth disaster problems which we must solve at a temporary sacrifice to some of the objectives we would like to achieve, we do not despair or lose faith in the future. We have a great State; a thrifty and intelligent people; and we know that it will rain again. We must and will find both the ways and means to continue the agricultural, industrial and educational progress of our great State. I have every confidence in you and that your wisdom will result in proper legislation and appropriations to take care of the needs of the people of Nebraska, consistent with our present day economy.

I pledge my continued ceaseless efforts to see that we get the most service possible from our tax dollars.

Respectfully submitted,

(Signed) Victor E. Anderson

RESOLUTION

LEGISLATIVE RESOLUTION 7. Re: Nebraska National Guard

Introduced by John E. Beaver, 12th District; Harry L. Pizer, 38th District; and Charles F. Tvrdik, 7th District.

WHEREAS, The Army National Guard of the State of Nebraska has attained the unprecedented peace time strength of 3,522 officers, warrant officers and men; and

WHEREAS, The Army National Guard of the State of Nebraska is organized into forty-five units located in thirty communities of this great state; and

WHEREAS, The Army National Guard of the State of Nebraska is under the Constitution of the United States a state force under the command of the Governor and becomes a federal force only when called or ordered into active federal service; and

WHEREAS, The Department of the Army and the Department of Defense of the Government of the United States have repeatedly attempted to degrade and deemphasize the achievements of the Army National Guard in organizing units, recruiting personnel, maintaining Army equipment and in training; and

WHEREAS, The Secretary of the Army has advised the President of the United States that the National Guard is eighty-three percent untrained notwithstanding the fact that the results of the Continental Army Command tests conducted last summer proved the opposite to be true; and

WHEREAS, The Secretary of the Department of the Army of the Government of the United States has directed that all non-prior service enlistees of the Army National Guard of this state be required to undergo a period of six months active duty training with the United States Army as a condition to their enlistment; and

WHEREAS, This requirement is unreasonable, unrealistic, unnecessary, exceedingly detrimental to the Army National Guard of the State of Nebraska, and in excess of the minimums specified by the Reserve Forces Act of 1955; and

WHEREAS, A similar requirement applied to the Army Reserve has failed materially to attract any significant number of young men into the Army Reserve despite herculean efforts by the Department of Defense and the Department of the Army and the expenditure of millions of dollars in an effort to overcome opposition thereto; and

WHEREAS, Adequate basic training can be provided in a period of three months; and

WHEREAS, The Army National Guard recognizes the need for a three month period of basic training and would accept such a period as a prerequisite to the enlistment of non-prior service enlistees; and

WHEREAS, A three month active duty basic training program as a condition of enlistment in the Army National Guard would encounter little if any opposition from Industry, Educators, Religious Groups, and the parents and the young men of the nation.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NEBRASKA LEGISLATURE IN SIXTY-EIGHTH SESSION ASSEMBLED:

1. That the State of Nebraska views with alarm and disapproval the unwarranted action of the Secretary of the Army of the Government of the United States, and urges its Representatives in the Congress of the United States to seek legislative action which will provide a realistic program of active duty basic training to be established for the Army National Guard.

2. That copies of this resolution, suitably engrossed, be transmitted by the Clerk of the Legislature to the Vice President of the United States as presiding officer of the Senate of the United

States, to the Speaker of the House of Representatives of the United States, and to each member from Nebraska in the Congress of the United States.

UNANIMOUS CONSENT—Print Attorney General's Opinion

Mr. Wagner asked unanimous consent that the following Attorney General's opinion be made a part of the Legislative Journal. No objections. So ordered.

STATE OF NEBRASKA
DEPARTMENT OF JUSTICE
LINCOLN

February 4, 1957

Senator August Wagner
Nebraska Legislature
Capitol Building
Lincoln, Nebraska

Dear Senator:

You have submitted the following question:

> "If the Senate enacts a law authorizing the Department of Forestation Game and Fish of the State of Nebraska to issue separate permits to land owners in the state to hunt and fish on their own lands, in consideration for which such land owners execute separate agreements authorizing the public to hunt and fish on the lands so owned and specifically designated in the agreement when signed by the land owner, and if the land is the home, then signed, witnessed and acknowledged by both husband and wife be valid and binding?"

We would answer your question in the affirmative. Under this approach to the problem, a landowner is simply giving his consent in advance for others to enter upon his land. There would be no compulsion on him to grant such consent. If he did not want others to hunt on his land he would still be free to buy a regular hunting license.

We want to call your attention to section 37-510, R. R. S., 1943, since you may want to consider its provisions in drafting legislation along the lines proposed in your letter.

Very truly yours,

CLARENCE S. BECK
Attorney General

Mr. Carpenter requested unanimous consent that the following statement be read and incorporated in the Journal. No objections. So ordered.

"Gov. Victor Anderson said his budget is 'realistic' and the state could 'get by easily' with it during the 1957-59 period.

"The governor was asked for comment on the Legislature's action on the budget.

"The governor said his budget, which would require $1.7 million less in state property taxes, still has 'a little cushion' in it to take care of any emergencies.

" 'My budget is sufficient to take care of all expenses that I knew of up to the time I made my recommendations,' the governor said.

"But, he commented, 'it was impossible for me to anticipate any legislation that might increase or reduce my budget.'

"Gov. Anderson said he has 'high regard' for the Budget Committee and 'I would accept any recommendation the Budget Committee makes.' He said in some instances the committee has been able to reduce his budget further.

"He said he feels the committee is making 'a better evaluation of needs than has been made for many years.' "

MOTION—Introduce Bill

Mr. President: I move that the Committee on Education be permitted to introduce a bill, the purpose of which is set forth in the following statement. (Signed) Don Thompson, Chairman

The motion prevailed with 31 ayes, 0 nays, and 12 not voting.

STATEMENT—Introduce Bill

This measure has been prepared to simplify existing laws relating to changing of school district boundary lines; to clarify the sections of the law relating to assumption of bonded indebtedness of existing districts; and to make possible better educational leadership by the State Committee and County Committees for School District Reorganization.

The amendments to Sec. 79-402 (the petition plan) would place more responsibility in the hands of the County Committee. Further study would be made by the State Committee. It provides for a hearing to be held locally after recommendations are made by both the County and State Committees. The final decision rests with the legal voters in the district involved and not with the County Committee or the State Committee. Further provision clarifies the existing statutes concerning the distribution of bonded indebtedness on existing districts when these districts merge.

Amendments to 79-426 and subsequent sections would strike out the so-called "Williams Amendment" of 1953; and shorten the time within which elections shall be called by the county committee. It would reduce the number of voting "units" in a reorganization election and simplify the process and also would strike out the 25% petition method of bringing a proposal to an election by action of the State Committee. The petition has never been used in the existing statutes.

The Education Committee voted unanimously to introduce this measure.

(Signed) Don Thompson, Chairman

The Revenue Committee is submitting to the Legislature a bill for introduction. This was passed by the Revenue Committee by unanimous vote for Legislative consideration. It provides for the use of the money from the Upland Game Stamp to be shifted to the general fund of the Game Commission for use in matching purposes whereby the $100,000.00 fund collected from the Upland Game Stamp may be used for matching purposes at a three to one (3 to 1) ratio.

RESOLUTION

LEGISLATIVE RESOLUTION 8. Re: Increased Tax Burden on Nebraska Agriculture

Introduced by Hans O. Jensen of Legislative District 25.

WHEREAS, the Nebraska Legislature here assembled believes the following:

(1) That agricultural economy and progress have a direct and inter-related bearing on the economy and progress of our nation as a whole.

(2) That Nebraska being almost exclusively an agricultural state, the above statement holds an ever greater importance to Nebraska than to other states.

(3) That, under the present tax structure, taxes constitute a major part of farm and farm-products costs and that further increase of these taxes will jeopardize not only the economy and

well-being of the farmers but also that of the rest of the state and national economy.

(4) That because of drought and other circumstances adversely affecting the agricultural cost-price relationship, Nebraska farmers are carrying more than their fair share of the state and local tax burden.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NEBRASKA LEGISLATURE IN SIXTY-EIGHTH SESSION ASSEMBLED:

1. That all tax spending bodies and governmental subdivisions are urged to study and scrutinize all their needs with every precaution to avoid spending any money during this critical period of trial through which agriculture is passing.

2. That the same scrutiny and study be applied to save, if possible, any amount, however small, in order to lighten the load borne by agriculture at this critical time through which farmers are passing and thereby help stimulate other phases of the state and national economy as well.

MOTION—Recall LB 129

Mr. President: I move that LB 129 be recalled for reconsideration. (Signed) Tom Dooley

Mr. Carpenter requested unanimous consent that his statement and the Attorney General's opinion be printed in the Journal. No objections. So ordered.

Statement

With reference to LB 129 which is now on the Governor's desk for signature, this Senate has made it possible for one of its members to request LB 129 be recalled from the Governor's office to the Senate for an amendment which would provide as its sole purpose the exempting of both public and private warehousemen from reporting stocks of goods which they have in their possession pertaining solely to "Goods in Transit" to the county assessor or commissioners for the purpose of taxation.

As a senator, I do not desire to make such a motion to recall LB 129 from the Governor's office. As I explained this morning, I have no objection to other senators doing this to bring about the suggested amendment. However, in the event such a request is made and granted I want to make it clear that I will attempt to amend LB 129 to the degree that the exclusion of the responsibility of warehousemen (both public and private) of reporting goods shipped "in transit", shall not give an added loophole to those who actually own the goods in the first instance "in transit", to escape their just taxation which is provided by the Statutes and the State Constitution.

Included in my proposed amendment will be the feature that goods "in transit" shall be confined to the regular interpretation of such "in transit" provisions and that the necessary records, as required by the Interstate Commerce Commission, be on file and complied with insofar as "in transit" shipments are concerned and shall not be used to avoid the intent of such "in transit" goods from being taxed.

It shall further be the intent of my amendment that to the degree that those persons or corporations who actually own the goods "in transit" but fail to report the same to the county assessor or commissioners, then they shall be fined to a considerable degree for such evasion of that type of "in transit" shipping.

It is my understanding, as a result of the conference I had with those representatives of the warehouse industry, that the only desire they have is that they be precluded from having the responsibility of only reporting such goods "in transit" to the local county assessor and they have no desire by such procedure to exclude those coming under the category of "in transit" shipping from paying their just and equitable share of whatever the regular tax might be upon such "in transit" shipments.

Respectfully submitted,

(Signed) Terry Carpenter

Re: L. B. 129

Dear Senator Carpenter:

You have verbally submitted three questions concerning the above mentioned bill, namely:

1. The measure has been passed by the Legislature, but has not been signed by the Governor. If it is now recalled for specific amendment, and becomes a law after March 1, will the act still be effective as to property for the assessing year starting March 1, 1957?

2. Can the Legislature legally amend the bill to exempt goods shipped "in transit" but which are stored in this state on assessment date?

3. If it is illegal to make the exemption, could the Legislature provide that the other provisions shall not be affected by a court decision invalidating the exemption clause?

Briefly, the act requires all warehousemen to report to the county assessor all goods held in storage by it, except used household goods. The report is to be made on or before April 1 of each year, as to goods held in storage on March 1. It appears to us that if the bill becomes effective at any time prior to April 1 of this year, the report would be required for this year as to goods held on March 1.

In answer to your second question, L. B. 129 does not actually determine the taxability of property. We stated on February 27, 1957, in an opinion to the Tax Commissioner, in discussing "in transit" goods stored in this state, that "L. B. 129, referred to in your letter does not affect the taxability of this property, but only requires the warehouseman to report all goods, except used household goods, stored in his warehouse on assessment date, as an aid to the taxing officials in assessing all taxable property."

The bill amends Section 77-1226, R. S. Supp. 1955, and changes the obligation and duty of the warehouseman from *assisting* the county assessors office in locating taxable goods to a *mandatory requirement* that he furnish the information to the assessor, without any solicitation or request on the part of the assessor.

Section 77-1227 R. R. S. 1943, is not affected by this measure and requires that the assessor "shall enter any such warehouse or storehouse for the purpose of verifying the list and report of goods stored or housed—when he has reason to question its accuracy."

Art. VIII, Sec. 2, of the Constitution of Nebraska, provides, **in part:**

"No property shall be exempt from taxation except as provided in the Constitution."

If the proposed amendment could be construed or intended as an attempt by the Legislature to exempt property otherwise subject to taxation, it would be invalid to that extent. Sections 77-1225 to 77-1227 were originally enacted in 1915 as S. F. 119 Laws of Nebraska 1915, page 528. The title to that act stated:

"An act to provide for the listing and return to the assessor for taxation all goods, wares and merchandise held in storage."

It is readily apparent that the procedure outlined was intended to be a part of the taxing process, and that all property required to be listed should be taxed. If the Legislature later exempts certain property from that required to be reported to the assessor, this might and could be construed as an invitation to omit such property from the tax rolls. On the other hand, if the proposed amendment is intended and could be construed as merely limiting the information given to the assessor, without regard to the taxability of the property involved, the constitutional objection would not then be present.

In answer to your third question our Court stated in Nelsen v. Tilley, 137 Neb. 327, that:

"We think the saving clause contained in the act, together with the nature of the invalid parts that have been nullified and the relation they bore to the remaining portions of the act, are such as to permit the remaining valid parts of the statute to remain in full force and effect."

It would appear that the adoption of an invalid section or part of an act would not affect the remaining part unless the invalid portion was the main inducement for the passage of the act and provided further that a proper saving clause was included therein.

Very truly yours,

CLARENCE S. BECK
Attorney General

UNANIMOUS CONSENT—Print Statement

Mr. Adams requested unanimous consent that the following statement be printed in the Journal, and that the Clerk of the Legislature, in behalf of the Legislature, send greetings. No objections. So ordered.

First Negro Nation of British Commonwealth Born in Africa

ACCRA, Ghana (Wednesday)—The first Negro nation of the British commonwealth was born Wednesday out of the old and prosperous Gold Coast colony in tropical West Africa.

The transition of power from British colonial hands to the nation named Ghana came at midnight ceremonies against a background of cheering and talking drums.

The newest nation was launched as the day began just past midnight.

At Accra's Parliament Building where the preliminaries of full independence had been practiced in British-supervised self-government, the British Union Jack was struck and the red-gold-green flag of Ghana hoisted in its place.

That historic act freed nearly five million Africans from foreign paramountcy, and it may have wide reverberations across the African continent.

Nations big and small around the globe sent representatives to celebrate Ghana's independence day, among them Vice-President Richard Nixon of the United States.

Britain bowed out gently in response to the demands of the people 86 years after the territory became a British colony. The new country takes in the self-governing colony of the Gold Coast and the part of Togoland administered formerly by Britain under U. N. trusteeship.

It stretches along the Gulf of Guinea on the African West Coast. Ghana was the name of a rich African kingdom that flourished in the area between the 6th and 10th centuries. It was chosen by Prime Minister Kwame Nkrumah, a U. S.-educated African who has been dreaming of independence for his country all his life.

Mr. Carpenter moved to recommit LB 217 to Select File for the following specific amendments. Motion pending.

1. Amend the bill, page 3, by inserting, immediately after section 1, ten new sections, to be known as sections 2 to 11 respectively, and reading as follows:

"Sec. 2. *No motor vehicle using special fuel, as defined in subdivision (4) of section 66-601, shall be operated on any highway of this state unless the owner or person responsible for the operation thereof shall have a current special fuel user license for such vehicle, which shall at all times be carried on the vehicle while in this state.*

Sec. 3. *Application for a special fuel user license shall be made to the motor fuel tax administrator on a form prescribed by him, which shall contain such information as he may reasonably require for the administration and enforcement of the provisions of this act, including a description of the vehicle covered by the application, its motor number, its weight unladen, in what state or states it is registered or licensed and the registration or license plate number or numbers, its licensed load if registered in Nebraska, its maximum gross load capacity if not registered in Nebraska, kind of fuel used for its operation, the approximate rate of consumption thereof by said vehicle in miles per gallon, the estimated number of miles per month said vehicle will be operated in Nebraska, and the post-office address of the applicant. The application shall be executed by the applicant and shall be accompanied by a fee of five dollars to be paid to the administrator to cover the expense of licensing. A separate application and accompanying fee shall be required for each motor vehicle using special fuel. The administrator is authorized if he deems necessary to require the applicant before license is issued or the licensee, after the issuance of license, to furnish security for the payment of any tax which may become due under the provisions of this act, either by cash deposit or surety bond approved by the administrator, the amount thereof to be determined in each case by the administrator but not to exceed three times the estimated monthly special fuel tax liability of the applicant or licensee. The administrator is authorized to suspend any special fuel user license issued upon failure of the licensee to make a cash deposit or post approved bond within five days after written demand therefor by United States mail addressed to the licensee at the address shown on the application. Operation of the vehicle in Nebraska covered by such license shall thereafter be unlawful until the demand for security is complied with and said license reinstated by the administrator.*

Sec. 4. *The administrator shall issue a special fuel user license to the applicant if the application is properly executed, contains the required information and the security, if any required, is deposited and the required fee paid; Provided, the administrator may refuse to issue a license to any person:*

(1) Who formerly held a license which, prior to the filing of the application, has been revoked for cause;

(2) Who is not the real party in interest and who is acting for another person whose license, prior to the filing of the application, has been revoked for cause; or

(3) Upon other sufficient cause being shown.

Before such refusal the motor fuel tax administrator shall grant the applicant a hearing, of which hearing the applicant shall have at least ten days written notice of the time and place.

Sec. 5. *The administrator shall date and sign or cause to be dated and signed each special fuel user license issued and the seal of his office shall be attached thereto. He shall retain a copy in his office of each license issued. The license shall state the name and address of the licensee, the motor number, the state or states and registration or license plate number or numbers of the vehicle for which the license is issued, the special fuel used to propel the same and such other information as the administrator may deem necessary. No special fuel user license shall be transferable. If the vehicle for which license is issued shall be transferred, destroyed or its operation in Nebraska discontinued for one year, the licensee shall surrender the license issued therefor and the same shall be cancelled and upon satisfaction of all liability under the provisions of this act by the licensee incurred by the operation of such vehicle any security deposited with the administrator shall be released. The motor vehicle may be operated by a lessee of the licensee, in which event the licensee shall continue to be responsible as licensee for compliance with all of the provisions of this act, including the keeping of records, making of returns and payment of tax.*

Sec. 6. *Every special fuel user licensed under the provisions of this act shall each calendar month file with the administrator, on forms prescribed by him, a tax return stating, as to the motor vehicle covered by the license, such information as the administrator may require, including the name of the licensee, his address, the number of the license, the motor number and license plate number of the motor vehicle, the licensed load authorized for such motor vehicle if licensed in Nebraska, the gross weight with load if such motor vehicle is not licensed in Nebraska, the* *number of miles operated in Nebraska during the calendar month covered by such report, and the number of gallons and kind of special fuel consumed in such operation in Nebraska during such month. Attached to such return shall be a copy of the log required to be kept by section 4 of this act and receipts showing any tax paid pursuant to section 66-605 at the time any special fuel was placed in the supply tanks of such motor vehicle. Such return shall be filed on or before the fifteenth day of the month following the month covered by the return, except that if such day falls on a Saturday, Sunday, or legal holiday, the filing date shall be extended to the first following day not a holiday. The return shall be signed by the licensee, who shall declare the return and the statements therein to be true and correct.*

Sec. 7. *The tax imposed by section 66-605 which has not been paid at the time any special fuel was placed in the supply tanks of the motor vehicle shall be computed and stated in the return and shall be due and payable at the time the return is required to be filed, and the licensee shall pay and remit the amount thereof to the administrator with the return. Such return and the amount of tax liability under any license shall be subject to review and audit by the administrator, and if any additional tax is found due the same shall be due and payable ten days after written notice has been given the licensee by United States mail.*

Sec. 8. *Any licensee shall pay an additional tax of five dollars for each day such licensee is in default of payment of any tax due under the provisions of this act, and any such licensee shall further pay an additional tax of five dollars for each day such licensee is in default in making the tax returns required by the provisions of this act in addition to the special fuel tax due from such licensee.*

Sec. 9. *Any licensee shall give notice in writing to the motor fuel tax administrator at the time of payment of any tax demanded by the administrator of any over-assessment of such tax. Such notice shall specify and identify the license and vehicle on account of which demand is made and shall set forth in detail the basis of the licensee's claim. The administrator shall determine such claim and refund any over-assessment within sixty days. If the licensee be dissatisfied with the decision or if no decision is rendered by the administrator within sixty days the licensee may institute an action against the administrator within sixty days thereafter in the district court of Lancaster County, Nebraska, to recover his claim. In such action the licensee shall have the burden of proving the correctness of his claim. The administrator shall issue voucher for any refund finally determined to be due.*

Sec. 10. *The motor fuel tax administrator shall enforce the provisions of this act and may prescribe, adopt, and enforce reasonable rules and regulations relating to the administration and enforcement thereof. The Department of Roads and Irrigation and the Nebraska Safety Patrol shall aid and cooperate with the administrator and make their services and facilities available so far as practicable to the administrator in carrying out the provisions of this act.".*

"Sec. 11. *Any person, firm, corporation, syndicate, or association, or the agent thereof, operating any motor vehicle in this state using or propelled by special fuel, who intentionally violates any of the provisions of this act, who makes any false entry or statement in any record required to be kept and maintained, who evades or attempts to evade the tax on special fuel used in such motor vehicle, or who operates or causes such vehicle to be operated on any highway in this state without the special fuel user license required by the provisions of this act, with the intention of violating the provisions of this act, shall be guilty of a misdemeanor and shall, upon conviction thereof, be fined in a sum not less than one hundred dollars nor more than five hundred dollars, or imprisoned in the county jail for not less than thirty days nor more than ninety days, or both such fine and imprisonment, for each offense.".*

MOTION—Introduce Bill

Mr. President: I move that the Committee on Education be permitted to introduce a bill, the purpose of which is set forth in the following statement. (Signed) Don Thompson, Chairman

Motion pending.

STATEMENT—Introduce Bill

The Education Committee voted to introduce a new Certification bill for the following reasons:

1. To replace LB 67, 68, and 369, which all relate to certification and if passed would require a tremendous amount of work on the part of the Bill Drafter and the Revisor of Statutes in order to make all these bills coincide.

2. The passing of one bill which fulfills the intent of the other three bills would save a considerable amount of printing costs, particularly for printing these bills for final reading.

3. Although the purposes for which LB 67, 68, and 369 were introduced are good, they would not repeal a lot of the "deadwood" that is still in the Statutes.

4. This is the first major revision or recodification of the certification laws since 1937.

5. The proposed certification bill would cut down the number of certificates which this Department may issue from 68 to approximately thirteen or fourteen certificates, which will simplify the work in the Department of Education and also make it possible for those persons concerned with certification to understand the certification laws.

6. At the present time the renewal of all certificates is somewhat different. Under the proposed law all renewals would be the same for those certificates based on less than a degree and also those certificates based on more than a degree.

7. The proposed bill would also insure better teachers since the required hours for renewal would have to be approved or apply toward the next higher level of certificate.

8. It will permit teachers to expand their subject-matter teaching fields by earning undergraduate work.

9. It would allow the State Board of Education to issue permits for substitute teaching, which now is not possible.

It is not a bill making four years of college a condition for certification in the public schools. It does not upgrade any level of certificate. It also encourages the use of specially-qualified persons who would be available for part-time teaching in their own particular fields such as physics, higher math, etc., which we do need now, without requiring them to get all the elementary and secondary education requirements to teach.

(Signed) Don Thompson, Chairman

RESOLUTIONS

LEGISLATIVE RESOLUTION 10. Re: Federal Grant in Aid Programs

Introduced by Ray C. Simmons, 11th District.

WHEREAS, the State of Nebraska is now in a period of severe drought and its Legislature is striving to economize in expenditures, and

WHEREAS, through federal grant in aid programs the federal government by extravagant and unnecessary spending is forcing Nebraska also to spend extravagantly to match and thus obtain back part of its own money, and,

WHEREAS, Nebraska citizens pay income taxes which go to Washington and are returned in part to Nebraska under federal grant in aid programs in amounts reduced by bureaucratic overhead, creating the false impression that the state is getting something for nothing, and,

WHEREAS, in returning funds to Nebraska the federal government ties strings to the use of these funds which interfere with local government, complicates the enactment of state legislation and forces the state to spend in fields it believes unwarranted, and

WHEREAS, it is common knowledge that local projects financed in part by federal funds usually cost excessively because of unnecessary federal requirements, and,

WHEREAS, the Nebraska Legislature feels that its citizens know better than the federal government how to spend the citizens' money and that local government is more capable and efficient than the federal government in managing local programs.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NEBRASKA LEGISLATURE IN SIXTY-EIGHTH SESSION ASSEMBLED:

1. That the federal government refrain from enacting new grant in aid programs and re-examine all such existing programs and end or reduce their costs wherever possible.

2. That copies of this resolution be transmitted to the Vice President of the United States as President of the Senate of the United States, to the Speaker of the House of Representatives of the United States, and to each member from Nebraska in the Senate of the United States and in the House of Representatives of the United States.

3. That copies of this resolution be transmitted to the presiding officers of the Legislatures of the other forty-seven states for their information and consideration.

MOTION—Introduce Bill

Mr. President: I move that the Committee on Public Works be permitted to introduce a bill, the purpose of which is set forth in the following statement. (Signed) Fay Wood, Chairman

STATEMENT—Introduce Bill

This bill is a bill which was drawn to be substituted for Legislative Bill 145.

LB 145 was not satisfactory for the people involved in this problem and even after amending, the Department of Roads and Irrigation and the Attorney General's office felt it would be better to substitute this new bill. It clarifies and validates certain extensions of time previously granted by the Department of Roads and Irrigation, and is intended to expedite the effectiveness of the legislation involved. Therefore the Public Works Committee have been asked to have this bill drafted and the Committee gave its unanimous consent to do this.

(Signed) Fay Wood, Chairman

Permission to introduce the bill granted with 34 ayes, 0 nays, and 9 not voting.

BILLS ON FIRST READING

The following bill was read the first time by title:

LEGISLATIVE BILL 587. By Committee on Public Works, Fay Wood, 24th District, Chairman

A bill for an act to amend section 46-238, Reissue Revised Statutes of Nebraska, 1943, and section 46-233, Revised Statutes Supplement, 1955, relating to irrigation; to provide for applications for appropriation of water; to validate construction or completion of works where application has not been previously made as prescribed; to provide for extension of time during which completion of projects and applications of water may be made; to provide for appeals from such extensions of time; to validate certain extensions of time previously granted by the Department of Roads and Irrigation as prescribed; and to repeal the original sections.

MOTION—Suspend Rules

Mr. President: I move to suspend the rules and refer LB 587 today. (Signed) Fay Wood

The motion prevailed with 37 ayes, 0 nays, and 6 not voting.

MOTION—Introduce Bills

Mr. President: I move that the Committee on Judiciary be permitted to introduce 3 related bills, for the purpose outlined in the accompanying statement. (Signed) Ray C. Simmons, Vice Chairman, Judiciary Committee

Permission to introduce the bills was granted with 27 ayes, 0 nays, and 16 not voting.

STATEMENT—Introduce Bills

It has always been assumed that the states could determine the requirements of legal procedure in matters of notice of pending actions to interested parties. It has long been standard procedure to allow notice by publication in various types of actions affecting title to real estate and special bond assessment levies. Recently, the United States Supreme Court has thrown into uncertainty the validity of notice by publication. These three bills attempt to make an immediate correction of our notice requirements in accordance with the Supreme Court decision.

Bill No. 1 provides personal notice to be given to all interested parties if their whereabouts can be ascertained from diligent inquiry. It does not change the existing requirements for published notice in legal actions but merely makes an additional requirement of personal notice if a person's whereabouts can be known.

Bill No. 2 authorizes municipal corporations or any political subdivision which has processed a special assessment by the use of published notice to correct their procedure in accordance with the Supreme Court decision. It allows the governmental subdivision to re-assess and re-levy in order to meet the requirements of bonding companies who are interpreting the Supreme Court decision very strictly.

Bill No. 3 provides for a statute of limitation for a period of one year to allow anyone to commence action within that time to assert any rights he may have because of the lack of proper notice. This provides the necessary cut-off date to keep the damaging effects of the Supreme Court decision at a minimum.

Judiciary Committee

RESOLUTIONS

LEGISLATIVE RESOLUTION 12. Re: Farm Corn Program.

Introduced by Hans O. Jensen, 25th District.

WHEREAS, That agricultural economy and progress have a direct and interrelated bearing on the economy and progress of our entire nation as a whole,

WHEREAS, That Nebraska being almost exclusively an agricultural state the above statement holds an ever greater importance to Nebraska than a great many other states,

WHEREAS, That as of this date the Congress of the United States has as yet been unable or unwilling to come up or agree upon a workable program for corn farmers,

WHEREAS, That the Department of Agriculture in the last few years has been unable to control production and surpluses with the programs they have offered because of their unpalatability to corn farmers,

WHEREAS, That unless a program is adopted which is acceptable to farmers with an appeal to them so that the percentage of participation can be high enough to actually control the production of corn disastrously low prices of both corn and livestock will follow very soon which will greatly accelerate the cost price squeeze in which the farmers are presently involved,

WHEREAS, That this situation will terminate industrial growth not only in Nebraska but all of the farm belt states,

WHEREAS, That it will terminate progress in all tax supported governmental efforts such as schools, roads, and other things which the government does with tax funds, and

WHEREAS, That the effect of this will greatly reduce our standard of living.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NEBRASKA LEGISLATURE IN SIXTY-EIGHTH SESSION ASSEMBLED:

1. That we plead with the Congress of the United States to resolve their differences without delay in connection with the corn program to be offered to farmers for 1957 inasmuch as planting season is now at hand and the farmer must know immediately in order to plan his operations accordingly.

2. That the program offered be one under which the farmer can pay his operating costs aimed at relieving the cost price squeeze and permit the farmer to retain title to his home and stay on the land.

3. That copies of this resolution, suitably engrossed, be transmitted by the Clerk of the Legislature to the Secretary of Agriculture, Ezra Benson, to the Speaker of the House of Representatives of the United States, and to each member from Nebraska in the Congress of the United States.

MOTION—Introduce Bill

Mr. President: I move that the Committee on Judiciary be permitted to introduce a bill, for the purposes outlined in the accompanying statement. (Signed) Ray C. Simmons, Vice Chairman, Judiciary Committee

STATEMENT—Introduce Bill

This bill repeals a section of the statute that is clearly in conflict with other sections of our statutory law. It provides for the juvenile court to have jurisdiction over cases of divorce, alimony, or custody of children. There is no constitutional possibility at the present time of a separate juvenile court and other statutes clearly show that the jurisdiction of divorce, alimony, and custodial cases is properly lodged with the District Court.

determined by conditions pertaining to membership in the association.

(2) The premium for the policy shall be paid by the policyholder, either from the association's own funds, or from charges collected from the insured members specifically for the insurance, or from both. MOTION—Introduce Bill

Mr. President: I move that the Committee on Judiciary be permitted to introduce a bill, for the purposes outlined in the accompanying statement. (Signed) Donald F. McGinley, Chairman

STATEMENT—Introduce Bill

This bill concerns the welfare of children under the custody of the Board of Control at the Home for Children in Lincoln. Attempt is made to place these children either in private homes by adoption or temporarily in foster care homes. This is authorized by statute at the present time.

This bill would allow the Board of Control to place children for foster care in private incorporated institutions. The purpose of this is to allow the best possible handling of exceptional cases where the welfare of a child would be better ensured in such an incorporated institution. It is not the intention to use such facilities as a matter of general policy, but only in legitimate cases that demand exceptional attention.

LEGISLATIVE BILL 118. Considered.

Mr. Carpenter requested unanimous consent that the letter received from Governor Anderson regarding LB 118 be printed in the Journal. No objections. So ordered.

April 2, 1957

The Honorable George Syas and
The Honorable John Aufenkamp
State Legislature
Lincoln, Nebraska

Dear Senators Syas and Aufenkamp:

You gentlemen made inquiry whether I favored LB 118 and the appropriation of approximately $30,000 to administer this law.

I wholeheartedly approve and endorse the passage of LB 118 because there are many of our cities in the State of Nebraska which have a water pollution problem. In many of these cities some action must be taken in the very near future.

Congress has appropriated and allocated for cities in the state $661,000 for matching purposes each year for a ten year period in order to correct the pollution problem in our state.

These are local construction projects. Our cities and towns must provide 70% of the construction cost and the federal government will provide 30%.

In order to qualify for these federal matching funds, the state must administer this program. The cost of the administration is approximately 55% federal and 45% state. The maximum amount which the federal government will provide for the administration is $54,000 per biennium.

While it might be true many of you do not believe in federal grants, I believe we all agree we should participate in the benefits if we are required to pay our share of the cost of this program. This cannot be done unless LB 118 is passed and the money appropriated.

As stated in my letter to Senator Aufenkamp of February 8, 1957, my budget recommendation includes some allowances such as this which will not increase the grand total of my recommendation.

If I can be of any further assistance to you, please let me know.

Sincerely yours,

(Signed) Victor E. Anderson
GOVERNOR

Mr. Aufenkamp asked unanimous consent that the name of George Syas, 4th District, be added as co-introducer of LB 118. No objections. So ordered.

MOTION—Indefinitely Postpone Bills

Mr. President: Since the Governor of the State of Nebraska has said in no uncertain terms that the state can operate to the degree necessary as outlined in his budget and that he is willing to individually assume the responsibility for such a position and since it has also been stated upon the floor of this Legislature that generally speaking we could be divided into two categories—one of tax spenders, and one of tax conservers, this motion will give this legislature an opportunity to classify itself into one of the two categories as outlined.

I move that LB 172, LB 100, LB 396, LB 464, LB 267, LB 506, LB 167, LB 484, LB 498 and LB 333 be indefinitely postponed. (Signed) Terry Carpenter

Mr. Tvrdik requested a division of the question.

Consideration of the motion laid over until Monday, April 8, 1957, at the request of Mr. Carpenter.

Sec. 5. (1) Any domestic insurance company operating on other than the stock plan may cede its business to another licensed insurer, whether stock, mutual assessment, or reciprocal exchange by a contract of bulk reinsurance upon compliance with this section.

(2) Such contract of bulk reinsurance shall not become effective unless first filed with and approved by the director, and thereafter approved by a majority vote of the policyholders of the ceding company present in person, or by proxy, and voting at an annual meeting, or at a special meeting called for that purpose. The director shall not approve such contract unless he finds it to be fair and equitable to the policyholders of each insurer involved. If the director does not so approve, he shall notify each insurer involved in writing, specifying his reasons therefor.

(3) Contracts of bulk reinsurance whereby an insurer operating on other than the stock plan of insurance cedes its business to a stock insurer, must provide for distribution to each policyholder of the ceding company of his equity in the surplus funds, if any, of such ceding company as determined under a fair and equitable formula approved by the director.

Sec. 6. Any domestic assessment association, which has accumulated and maintains the same reserve for liabilities that is required of a mutual company transacting the same kind or kinds of business, and which has a surplus or contingency funds equal to, or in excess of the surplus required of a mutual company transacting the same kind or kinds of business, may in any contract of reinsurance or bulk reinsurance, agree to limit its assessments to the premium stated in the policies issued by the ceding company.

Sec. 7. (1) A contract of consolidation involving a domestic insurance company must be approved by a majority vote of the board of directors or other governing body of each of the respective parties thereto, as well as by a majority vote of the policyholders, present in person or by proxy at an annual meeting, or at a special meeting called for that purpose. Such contract of consolidation must be approved by the director prior to submission to the policyholders for approval. After approval by the policyholders, the officers of the respective parties thereto may enter into and consummate such contract of consolidation, and do, and perform all acts necessary to the final and complete consummation thereof. Such contract of consolidation shall designate the corporation which is to continue or survive, and which shall thereafter be licensed by the department. Said surviving company may assume in whole, or in part, the name of the retiring company. Such contract of consolidation, upon becoming effective, shall have the effect of transferring the assets, rights, franchises, and interests of the companies so consolidated to the continuing or surviving company, and simultaneously therewith, such surviving or continuing company shall be deemed to have assumed all the liabilities of the consolidated companies. A contract of consolidation need not require a disposition or other distribution of the surplus assets of either party thereto to their respective policyholders. No action or proceeding, pending at the time of such consolidation to which either of the consolidating parties may be a party, shall be abated or discontinued by reason of such consolidation, but the same may be prosecuted to final judgment in the same manner as if the consolidation had not taken place, or the continuing or surviving company may be substituted in place of any such company so consolidated, as the case may be, by order of the court in which the action or proceeding is pending.

(2) Any assessment association which has accumulated and maintains the same reserve for liabilities that is required of a mutual company transacting the same kind or kinds of business, and which has a surplus or contingency funds equal to, or in excess of that required of a mutual company transacting the same kind or kinds of business may, in any consolidation agreement in which it is to continue or survive as an assessment association, agree to limit its assessments to the premium stated in the policies issued by the retiring company.

Sec. 8. All special meetings of stockholders or policyholders called pursuant to sections 3, 5, and 7 of this act shall be called upon a printed notice which shall contain (1) the time, place, and purpose of the meeting; (2) a brief statement of the substance of the contract, and in the case of the type of a bulk reinsurance contract contemplated by subsection (3) of section 5 of this act, a brief statement of the plan for distributing or otherwise disposing of the surplus assets, if any, of the ceding company; and (3) a copy of the order of the director approving the contract. Such notice shall be mailed at least ten days prior to the date the special meeting is called and shall be directed to the stockholder or policyholder at his last postoffice address appearing on the records of the company.

Sec. 9. Any party aggrieved by any order of the director approving or disapproving any contract of merger, consolidation, or bulk reinsurance may appeal to the district court of Lancaster County in the manner provided by section 44-154, Reissue Revised Statutes of Nebraska, 1943.

Sec. 10. Whenever any company operating on other than the stock plan reinsures all of its risk and business, in bulk its charter shall be deemed forfeited to the State of Nebraska. Whenever any company enters into a contract of consolidation and thereby loses its separate identity, its charter shall be deemed forfeited to the State of Nebraska.

Sec. 11. That original sections 44-224, 44-225, 44-226, 44-227, 44-228, and 44-229, Reissue Revised Statutes of Nebraska, 1943, and section 44-230, Revised Statutes Supplement, 1955, are repealed.".

2. UNANIMOUS CONSENT—Print Statement

Mr. Wood requested unanimous consent that the statement relative to LB 598 be printed in the Legislative Journal in compliance with the request of Mr. Carpenter. No objections. So ordered.

PUBLIC WORKS COMMITTEE STATEMENT ON LB 598

The importance and extent of the use of underground water is a matter of general concern. The Legislature has recognized the problems that may arise in the future from extensive use of this water by adopting at this session legislation requiring the registration and governing the spacing of irrigation wells, and other legislation concerning this problem has been introduced.

The Constitution of this state provides for preference in the use of surface water and appropriate legislation has been enacted to carry out that constitutional directive. However, it is firmly established that the constitutional and legislative provision governing the use of surface water do not apply to the use of underground water. Until this session of the Legislature, no laws had been enacted pertaining to the use of such water.

This bill is designed and intended to establish preferences in the use of underground water and to remove any uncertainties that may now exist in such use. The order of preference is the same as that provided by the constitution for the use of surface water. At the present time we are not aware of any controversies resulting from a shortage of sub-surface water, but if the use of these waters continues at the present rate and increases to the extent indicated, we can reasonably expect that problems of allocation of this water will arise. If this bill is adopted, we will have established some fundamental principles for the solution of these problems and, more important, the establishment of preferences in use now may help to avoid future litigation. The sole purpose of this statement is to show the intent of the Legislature in this legislation.

LB 598 was advanced to General File by unanimous vote.

RESOLUTIONS

LEGISLATIVE RESOLUTION 16. Re: Taxes by Public Power Districts

Introduced by Terry Carpenter, 42nd District.

WHEREAS, The statutes of this state have for many years required that public power districts acquiring property by various means make certain payments in lieu of taxes that would be assessed against such property if it were held under private ownership; and

WHEREAS, Payments in lieu of taxes have been made by public power districts in this state for many years; and

WHEREAS, Disputes have arisen concerning the constitutionality of requiring the making of payments in lieu of taxes by public power districts; and

WHEREAS, The opinion has frequently been expressed that such payments in lieu of taxes cannot constitutionally be required; and

WHEREAS, It is desirable and in the best interests of the State of Nebraska that all doubts as to the constitutionality of such payments in lieu of taxes be finally resolved.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NEBRASKA LEGISLATURE IN SIXTY-EIGHTH SESSION ASSEMBLED:

1. That the Legislature hereby requests that the Attorney General, pursuant to the provisions of subdivision (9) of section

84-205, Reissue Revised Statutes of Nebraska, 1943, institute such action as may be necessary to obtain a final determination of the constitutionality of requiring the making of payments in lieu of taxes by public power districts in this state.

Message from the Governor

April 8, 1957

The President, the Speaker, and
Members of the Legislature
State Capitol Building
Lincoln, Nebraska

Gentlemen and Mrs. Foote:

This is to request permission of your Honorable Body to allow me to introduce a bill for an Act relating to Indians; to provide when a county may be reimbursed for feeding Indian prisoners and the amount thereof; and to provide the procedure for a county to obtain such funds.

A few years ago the Federal Government, under a law passed by Congress, withdrew jurisdiction over offenses committed by or against Indians, which placed this responsibility on the State.

Law enforcement is the responsibility of the local government and in this case the County of Thurston; however, if this responsibility is more than the County can provide then I feel the State must provide the additional financial aid to preserve law and order. I have given a great deal of study to the problem of law enforcement in Thurston County and find the cost of enforcement and feeding these prisoners is beyond the ability of the County to provide.

The tribal lands are entirely tax exempt; leaming allotments are tax exempt; a limited number of farms which have been patented in the past few years have been restricted by deed and are tax exempt. All other Indian allotments are tax free if occupied by Indians; however, if rented to a white farmer they are subject to taxation. In 1956, this list included 38,192 acres in Thurston County, valued at $1,345,070.

From the above, it is apparent that the Indian population of Thurston County assumes a very small portion of the tax burden of that County, although constituting about 1/3 of the population.

During the year 1956, the cost of board for prisoners in Thurston County was $10,549.00. The total prisoner population in

Thurston County during 1956 was 280, of which the Indian constituted 236.

The bill which I am recommending for introduction provides that the County pay the first $500.00 cost of feeding the prisoners and the State of Nebraska pay any additional cost above $500.00 per month, not to exceed a total cost to the State of $500.00 in any calendar month. The maximum this could cost the state would be $12,000.00 for the biennium.

When I was in Washington a short time ago I took this matter up with the Commissioner of Indian Affairs, to see if there was any possibility of the Federal Government assisting with this problem. The Commissioner advised me that under the present law there was no possibility of Federal assistance. He did, however, advise that they would assist with this problem in connection with juvenile delinquency among Indians by adding a member to their staff to help with this phase of the problem.

My budget recommendation to the Legislature provides sufficient cushion to include this cost without increasing the grand total of my budget recommendation.

Respectfully submitted,

(Signed) Victor E. Anderson
Governor

RESOLUTIONS

LEGISLATIVE RESOLUTION 17. Re: Statehood to Alaska and Hawaii

Introduced by Charles F. Tvrdik, 7th District; George Syas, 4th District.

WHEREAS, The United States of America has become the greatest power in the history of mankind because it is a united nation of equal and sovereign states and not an empire; and

WHEREAS, The people of the United States devised a method and program of incorporating territories, which method, as a first step leading to the full privileges of statehood, imposes on the people of such territories the obligations of the citizens of the several states, while withholding from such territorial citizens, however, the basic rights of self government and full representation in the councils of the United States; and

WHEREAS, Alaska and Hawaii have been incorporated as territories of the United States for many years, and by the very act of such incorporation as United States Territories have been promised the full privileges of statehood with first class citizenship for the peoples of Alaska and Hawaii; and

WHEREAS, Both political parties have recognized that every consideration of fairness demands that the people of these territories be given the full privileges of American citizenship in their platforms and other policy declarations; and

WHEREAS, The granting of statehood to these territories will strengthen the United States immeasurably in human resources and in its foreign relations particularly as regards the great Pacific Basin Area; and

WHEREAS, We in the West have a particular interest in and close ties with the people of Alaska and Hawaii.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NEBRASKA LEGISLATURE IN SIXTY-EIGHTH SESSION ASSEMBLED:

1. That Alaska and Hawaii be admitted to the Union in the year 1957.

2. That a copy of this resolution be sent to every western senator and congressman and that each of them are requested to make every effort to see that bills to grant statehood to Alaska and Hawaii be promptly considered and passed.

RESOLUTIONS

LEGISLATIVE RESOLUTION 18.

LR 18 was adopted with 33 ayes, 0 nays, and 10 not voting.

LEGISLATIVE RESOLUTION 19. Re: School Segregation

Introduced by John Adams, Sr., 5th District.

WHEREAS, the United States Supreme Court and various federal courts have been subjected to severe criticism as a result of the decisions and decrees in the school segregation and related cases which declare that segregation and discrimination because of race, color, religion or national origin in public schools and facilities violate the principles of the Constitution of the United States; and

WHEREAS, these decisions and decrees of the United States Supreme Court and various federal courts have been condemned as a usurpation of and encroachment on the reserved powers of the states by the Supreme Court and central government of the United States; and

WHEREAS, the decisions and decrees of the United States Supreme Court and various federal courts are being condemned, disregarded and evaded both directly and indirectly by state legislation, procrastination in complying with said decisions and decrees, coercion and intimidation, all under the theory that any state has a right to interpose its sovereignty in opposition to an exercise of power by the federal government which that state determines has not been granted by the several states to the federal government; and

WHEREAS, all the states of the United States are bound by the Constitution and laws of the United States, including judicial interpretation of said Constitution and laws, until later changed through Constitutional processes; and

WHEREAS, the Constitution of the United States provides the manner in which said Constitution and laws of the United States are to be enacted, amended or repealed; and

WHEREAS, the Constitution of the United States does not permit any state to act in total disregard of any federal law, court decision or decree when the state has through an assumption of unconstitutional powers declared that any said law, decree or decision is unconstitutional; and

WHEREAS, to permit each state to decide of itself by which provision of the United States Constitution, law, judicial decree or decision it shall be bound would eventually result in the destruction of the federal system of government.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NEBRASKA LEGISLATURE IN SIXTY-EIGHTH SESSION ASSEMBLED:

1. That the United States of America is founded upon the principle that everyone is entitled to equal privileges, opportunities, rights, duties and immunities regardless of race, color, religion or national origin, and any public facility which segregates or discriminates against any person because of race, color, religion or national origin is contrary to said principle.

2. That segregation and discrimination because of race, color, religion or national origin in public schools and facilities is prohibited by the Constitution of the United States, and no state has the right to maintain at its own expense racially separate public schools or facilities.

3. That the Nebraska Legislature go on record as approving and supporting the decision of the United States Supreme Court in the school segregation cases.

4. That the Supreme Court of the United States is the final arbiter on questions of constitutionality, and any disagreement or dissatisfaction this state may have with any decision or decree of said court should be resolved through the processes provided by the Constitution and laws of the United States.

5. That the theory of interposition, whereby the authority of the government of the United States is disregarded when any state decides it shall interpose its sovereignty in disobedience to that authority, is hereby condemned as a dangerous threat to the Constitution and federal system of government of the United States.

6. That a copy of this resolution be sent by the Clerk of the Legislature to the President of the United States, to each of the Houses of Congress, to Nebraska's Representatives and Senators in Congress, to the Governor and Legislature of each of the other states, and to the Supreme Court of the United States.

MOTION—Introduce Bill

Mr. President: I move that the Committee on Judiciary be permitted to introduce a bill, the purpose of which is set forth in the accompanying statement. (Signed) Donald F. McGinley, Chairman

STATEMENT—Introduce Bill

The Revisor of Statutes advises that the supply of Volumes IV and V of the Nebraska Statutes is low and will be exhausted before the next Legislature meets. This bill would authorize a reissue of Volumes IV and V in revised up-to-date form. Three thousand volumes are to be issued. Since it will be a revised edition, it is expected to be current for the next 8 years. Estimated cost of the reissue is $50,000. Approximately $30,000 will be recovered by sale of the volumes.

The Committee believed that an emergency exists and voted unanimously in favor of presenting the bill for introduction.

Message from the Governor

April 16, 1957

The President, the Speaker and
Members of the Legislature
State Capitol Building
Lincoln, Nebraska

Gentlemen and Mrs. Foote:

This is to request permission of your Honorable Body to allow me to introduce a bill for an Act for submission to the electors in November, 1958, of an amendment to the State Constitution, which would authorize municipalities to acquire, own, and lease real and personal property to private enterprises, the cost thereof to be defrayed by revenue bonds secured by a pledge of the lease and revenues therefrom and by mortgage upon such property.

My reason for making this request is that a similar bill, L. B. 376, was passed in the 1955 Session of the Nebraska Legislature, without providing for submission of the proposal to the electors. Ten days ago the Nebraska Supreme Court declared L. B. 376 unconstitutional.

This proposed bill is highly endorsed by our Division of Nebraska Resources and will be very helpful in bringing new industry to our smaller cities.

As Governor, I heartily endorse this bill and recommend its passage.

Respectfully submitted,

(Signed) Victor E. Anderson
Governor

Introduced by Mervin V. Bedford, 23rd District, John P. Munnelly, 8th District, Dwain Williams, 35th District, and Monroe Bixler, 41st District.

WHEREAS, the statutes of Nebraska now contain four different acts each permitting the making of small loans at rates of interest in excess of the maximum rate generally chargeable, which acts are:

(1) the act permitting the making of installment loans by industrial loan and investment companies (sections 8-418 to 8-433, Reissue Revised Statutes of Nebraska, 1943);

WHEREAS, several bills have been submitted to this Legislature to permit the making of such loans by persons, firms, or corporations not now permitted to do so; and

WHEREAS, persons, firms, or corporations not now permitted to make such loans have developed numerous practices in the handling of retail credit transactions, including the use of financing charges, service charges, and time-sales differentials; and

WHEREAS, serious doubt exists as to the legality of the practices frequently employed in the handling of retail credit transactions and the making of small loans at rates of interest in excess of the maximum rate generally chargeable; and

WHEREAS, confusion exists as to the legality of many such practices; and

WHEREAS, it is desirable that further study be made of present practices and of existing and proposed law.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NEBRASKA LEGISLATURE IN SIXTY-EIGHTH SESSION ASSEMBLED:

RESOLUTIONS

LEGISLATIVE RESOLUTION 22. Re: Wheat Price Support

Introduced by Hans O. Jensen, 25th District.

WHEREAS, The Secretary of Agriculture has announced that the support price of wheat produced in 1958 is being lowered twenty-four cents a bushel to a national average of one dollar and seventy-eight cents per bushel; and

WHEREAS, Farm operating costs have risen continuously for several years, resulting in the placing of farmers, including wheat growers, in a serious financial position; and

WHEREAS, The proposed reduction in the wheat price support level will have serious and disastrous impact not only upon farmers but also upon urban people and all who serve the farmers as merchants in every town and village in Nebraska; and

WHEREAS, The loss of farm income is already being felt in most trade areas in this state; and

WHEREAS, The proposed reduction in the wheat price support level will have a serious adverse effect on the ability of farmers to pay taxes necessary for the support of governmental activity, including schools, which can seriously effect the growth and program of the University of the State of Nebraska and other state-supported institutions of higher learning and thereby retard the progress of the entire state in years to come; and

WHEREAS, The cost of living has continued to rise despite repeated lowering of support prices of agricultural products, indicating that lower support prices will not produce a lower cost of living; and

WHEREAS, The Department of Labor, on April 22, 1957, announced that the cost of living has reached an all-time high, permitting wage increases for those workers protected by cost-of-living contracts, which in turn will be reflected in further increases in farm operating costs; and

WHEREAS, The theory of the Secretary of Agriculture that reduced price support levels will discourage agricultural production is false, the actual effect being to increase production.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NEBRASKA LEGISLATURE IN SIXTY-EIGHTH SESSION ASSEMBLED:

(1) That opposition be, and it is hereby, expressed to the contemplated reduction in the wheat price support level.

(2) That the Secretary of Agriculture be asked to establish a price support level for wheat, and other grains as well, to keep such prices in harmony with farm operating costs, or in the alternative that the price support level be established at ninety per cent of parity.

(3) That a copy of this resolution be transmitted by the Clerk of the Legislature, to the Secretary of Agriculture and to each member from Nebraska in the Congress of the United States.

LEGISLATIVE RESOLUTION 23. Re: University Tuition Increase

Introduced by John Adams, Sr., 5th District.

WHEREAS, the Board of Regents of the University of Nebraska announced on April 23, 1957, an increase in the tuition fees for students commencing with the fall term, 1957, and

WHEREAS, the increase may cause a hardship for students desiring to continue in their higher education, and

WHEREAS, the Legislature is responsible to the people for furnishing adequate facilities for learning to students.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NEBRASKA LEGISLATURE IN SIXTY-EIGHTH SESSION ASSEMBLED:

1. That the Speaker invite Clifford Hardin, the Chancellor of the University of Nebraska, and the members of the Board of Regents of the University of Nebraska to address us on the needs for such increase in tuition and whether a reconsideration of such matter might be expected in order that no student will be forbidden to attend the University of Nebraska and seek higher education because of such increase in tuition fees.

Introduced by Hans O. Jensen, 25th District, and Willard H. Waldo, 21st District.

WHEREAS, Farm operating costs have risen continuously for several years, resulting in the placing of farmers, including wheat growers, in a serious financial position; and

WHEREAS, The proposed reduction in the wheat price support level will have serious and disastrous impact not only upon farmers but also upon urban people and all who serve the farmers as merchants in every town and village in Nebraska; and

WHEREAS, The loss of farm income is already being felt in most trade areas in this state; and

WHEREAS, The cost of living has continued to rise despite repeated lowering of support prices of agricultural products, indicating that lower support prices will not produce a lower cost of living; and

WHEREAS, Nebraska wheat growers have had to reduce their wheat acreage by one-fourth since wheat acreage allotments became effective with the 1954 crop and have been in effect each year thereafter; and

WHEREAS, The average price received by Nebraska farmers for a bushel of wheat has declined by twenty-three cents per bushel or about ten per cent from 1947 to 1956; and

WHEREAS, The Secretary of Agriculture has announced a further reduction of twenty-two cents per bushel in the minimum national average support rate for 1958 crop wheat at one dollar and seventy-eight cents per bushel compared to two dollars per bushel for 1957 crop wheat; and

WHEREAS, This reduction in the 1958 price support rate on wheat combined with the reduced wheat acreage allotments will result in a very serious reduction in Nebraska farm income at a time when the costs of producing wheat have been gradually increasing, thereby unduly penalizing Nebraska farmers; and

WHEREAS, The theory of the Secretary of Agriculture that reduced price support levels will discourage agricultural production is false, the actual effect being to increase production; and

WHEREAS, Nebraska hard red winter wheat has earned an enviable reputation throughout grain and milling industry circles in the United States and has been in exceptional demand for blending with other wheats in the production of flour for bread; and

WHEREAS, History shows many farmers of Nebraska normally plant more wheat in periods of dry years and since there is no surplus of the high quality milling wheat produced in Nebraska;

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NEBRASKA LEGISLATURE IN SIXTY-EIGHTH SESSION ASSEMBLED:

(1) That the Nebraska Legislature go on record in protest of the reduction of twenty-two cents per bushel on the 1958 Wheat Support Rate.

(2) That the Secretary of Agriculture be requested to consider these factors in setting the state wheat acreage allotments for Nebraska in 1958.

(3) That a copy of this resolution be transmitted by the Clerk of the Legislature, to the Secretary of Agriculture and to each member from Nebraska in the Congress of the United States.

Standing Committee amendments to LB 567:

1. Amend the bill by striking sections 1 to 9 and inserting, in place thereof, the following:

"Section 1. To facilitate urban planning in cities and villages, the Division of Nebraska Resources is hereby authorized to provide planning assistance, which includes but is not limited to surveys, land use studies, urban renewal plans, technical services, and other planning work, to any city or village in the state upon the request of such city or village. The Division of Nebraska Resources and any metropolitan, regional, or joint planning body heretofore or hereafter created pursuant to law are further authorized to perform similar planning work in metropolitan or regional areas within the territorial jurisdiction of such planning bodies; *Provided*, that the Division of Nebraska Resources shall not perform such planning work with respect to a metropolitan or regional area which is under the jurisdiction for such planning purposes of a metropolitan, regional, or joint planning body, except at the request or with the consent of the respective metropolitan, regional, or joint planning body.

Sec. 2. The Division of Nebraska Resources and metropolitan, regional, and joint planning agencies are authorized to accept and expend grants from the federal government and other public or private sources, to contract with reference thereto, and to enter into other contracts and exercise all other powers necessary to carry out the purposes of this act.

Sec. 3. It has been found and is declared that federal grants for planning assistance are now available under provisions of the Housing Act of 1954; and these grants are necessary to the undertaking of urban planning and other planning work urgently needed in many areas of the state; and that the enactment of this act would permit such grants to be obtained for that purpose. An emergency is therefore declared to exist, and this act being necessary for the preservation of the public peace, health, and safety, shall be in full force and take effect from, and after its passage and approval according to law.".

2. Amend the title by striking lines 2 to 13 and substituting, in place thereof, the following:

"FOR AN ACT to authorize the Division of Nebraska Resources to perform and assist urban planning as prescribed; to authorize metropolitan, regional, and joint planning agencies to perform planning in metropolitan or regional areas; to authorize such planning agencies and the Division of Nebraska Resources to contract for, accept, and expend grants from the federal government for planning purposes; to authorize the execution of contracts and exercise of powers necessary to carry out the purposes of this act; and to declare an emergency.".

LEGISLATIVE BILL 433. Read and considered.

Mr. Simmons offered the following amendments, which were adopted with 25 ayes, 7 nays, and 11 not voting:

1. Amend the bill by adding a new section to be known as section 1 and to read as follows:

"Section 1. That section 48-121, Revised Statutes Supplement, 1955, be amended to read as follows:

48-121. The following schedule of compensation is hereby established for injuries resulting in disability:

(1) For the first three hundred weeks of total disability, the compensation shall be sixty-six and two-thirds per cent of the wages received at the time of injury, but such compensation shall not be more than thirty dollars per week, nor less than twenty dollars per week; *Provided,* that, if at the time of injury, the employee receives wages of less than twenty dollars per week, then he shall receive the full amount of such wages per week as compensation. After the first three hundred weeks of total disability, for the remainder of the life of the employee, he shall receive forty-five per cent of the wages received at the time of injury, but the compensation shall not be more than twenty-five dollars per week nor less than seventeen dollars per week; *Provided,* that if at the time of the injury the employee receives wages of less than seventeen dollars per week, then he shall receive the full amount of such wages as compensation. Nothing in this subdivision shall require payment of compensation after disability shall cease. Should partial disability be followed by total disability, the period of three hundred weeks mentioned in this subdivision of this section shall be reduced by the number of weeks during which compensation was paid for partial disability.

(2) For disability partial in character, except the particular cases mentioned in subdivision (3) of this section, the compensation shall be sixty-six and two-thirds per cent of the difference between the wages received at the time of the injury and the earning power of the employee thereafter, but such compensation shall not be more than thirty dollars per week. This compensation shall be paid during the period of such partial disability, but not be-

yond three hundred weeks after the date of the accident causing disability. Should total disability be followed by partial disability, the period of three hundred weeks mentioned in this subdivision shall be reduced by the number of weeks during which compensation was paid for such total disability.

(3) For disability resulting from permanent injury of the following classes, the compensation shall be in addition to the amount paid for temporary disability; *Provided,* the compensation for temporary disability shall cease as soon as the extent of the permanent disability is ascertainable, viz: For the loss of a thumb, sixty-six and two-thirds per cent of daily wages during sixty weeks. For the loss of a first finger, commonly called the index finger, sixty-six and two-thirds per cent of daily wages during thirty-five weeks. For the loss of a second finger, sixty-six and two-thirds per cent of daily wages during thirty weeks. For the loss of a third finger, sixty-six and two-thirds per cent of daily wages during twenty weeks. For the loss of a fourth finger, commonly called the little finger, sixty-six and two-thirds per cent of daily wages during fifteen weeks. The loss of the first phalange of the thumb or of any finger shall be considered to be equal to the loss of one half of such thumb or finger and compensation shall be for one half of the periods of time above specified, and the compensation for the loss of one half of the first phalange shall be for one-fourth of the periods of time above specified. The loss of more than one phalange shall be considered as the loss of the entire finger or thumb; *Provided,* that in no case shall the amount received for more than one finger exceed the amount provided in this schedule for the loss of a hand. For the loss of a great toe, sixty-six and two-thirds per cent of daily wages during thirty weeks. For the loss of one of the toes other than the great toe, sixty-six and two-thirds per cent of daily wages during ten weeks. The loss of the first phalange of any toe shall be considered equal to the loss of one half of such toe, and compensation shall be for one half of the periods of time above specified. The loss of more than one phalange shall be considered as the loss of the entire toe. For the loss of a hand, sixty-six and two-thirds per cent of daily wages during one hundred seventy-five weeks. For the loss of an arm, sixty-six and two-thirds per cent of daily wages during two hundred twenty-five weeks. For the loss of a foot, sixty-six and two-thirds per cent of daily wages during one hundred fifty weeks. For the loss of a leg, sixty-six and two-thirds per cent of daily wages during two hundred fifteen weeks. For the loss of an eye, sixty-six and two-thirds per cent of daily wages during one hundred twenty-five weeks. For the loss of an ear, sixty-six and two-thirds per cent of daily wages during twenty-five weeks. For the loss of hearing in one ear, sixty-six and two-thirds per cent of daily wages during fifty weeks. For the loss of

hearing in both ears, sixty-six and two-thirds per cent of daily wages during one hundred weeks. For the loss of the nose, sixty-six and two-thirds per cent of daily wages during fifty weeks. The loss of both hands, or both arms, or both feet, or both legs, or both eyes, or of any two thereof, shall constitute total and permanent disability and be compensated for according to the provisions of subdivision (1) of this section. Amputation between the elbow and the wrist shall be considered as the equivalent of the loss of a hand, and amputation between the knee and the ankle shall be considered as the equivalent of the loss of a foot. Amputation at or above the elbow shall be considered as the loss of an arm, and amputation at or above the knee shall be considered as the loss of a leg. Permanent total loss of the use of a finger, hand, arm, foot, leg, or eye shall be considered as the equivalent of the loss of such finger, hand, arm, foot, leg, or eye. In all cases involving a permanent partial loss of the use or function of any of the members mentioned in this subdivision, the compensation shall bear such relation to the amounts named in said subdivision as the disabilities bear to those produced by the injuries named therein. Should the employer and the employee be unable to agree upon the amount of compensation to be paid in cases not covered by the schedule, the amount of compensation shall be settled according to the provisions of sections 48-173 to 48-185. Compensation under this subdivision shall not be more than thirty dollars per week, nor less than twenty dollars per week; *Provided,* that, if at the time of the injury, the employee received wages of less than twenty dollars per week, then he shall receive the full amount of such wages per week as compensation.

(4) For disability resulting from permanent disability when the employment was continuous, seasonal, or part-time, or employment dependent upon the weather, if immediately prior to the accident rate of wages was fixed by the day or hour or by the output of the employee, his weekly wages shall be taken to be computed upon the basis of a work week of a minimum of five days, if the wages are paid by the day, or upon the basis of a work week of the minimum of forty hours, if the wages are paid by the hour.".

2. Amend section 1 by renumbering as section 2, lines 15 to 35 by striking the new matter and reinstating the stricken matter, and line 32 by inserting "*, except as provided by the provisions of section 48-121*" after the reinstated word "employer".

48-122. (1) If death results from injuries and the deceased employee leaves one or more dependents wholly dependent upon his earnings for support at the time of the accident causing the injury, the compensation, subject to the provisions of section 48-123, shall be sixty-six and two-thirds per cent of the wages received at the time of the injury, but the compensation shall not be more than thirty dollars per week or less than twenty dollars per week; *Provided,* if at the time of injury the employee receives wages of less than twenty dollars per week, then the compensation shall be the full amount of such wages per week. This compensation shall be paid during dependency, not exceeding three hundred twenty-five weeks from the date of the accident causing such injury.

(2) When death results from injuries suffered in employment which was continuous, seasonal, or part-time, or employment dependent upon the weather, if immediately prior to the accident the rate of wages was fixed by the day or hour or by the output of the employee, the weekly wages shall be taken to be computed upon the basis of a work week of a minimum of five days, if the wages are paid by the day, or upon the basis of a work week of a minimum of forty hours, if the wages are paid by the hour.

(2) *(3)* If at the time of the accident, which resulted in his death, the deceased employee leaves no persons wholly dependent, but leaves persons partially dependent upon his earnings for support, compensation shall be paid on account of the benefits provided in subdivision (1) of this section for persons wholly dependent, in the proportion that the average amount regularly contributed by the deceased from his wages for a reasonable time immediately prior to the accident, to such persons who were partially dependent, bears to the total wages of the deceased during the time; *Provided,* that for the purpose of this subdivision, the wages shall not in any case be considered to exceed thirty-five dollars per week.

(3) *(4)* Upon the death of an employee, resulting through personal injuries as herein defined, whether or not there be de-

~~(4)~~ *(5)* Compensation under this act to alien dependents, widows, children, and parents who are not residents of the United States, shall be the same in amount as is provided in each case for residents, except that at any time within one year after the death of the injured employee the employer may at his option commute all future installments of compensation to be paid to such alien dependents by paying to them two-thirds of the total amount of such future installments of compensation. Alien widowers, brothers, and sisters not residents of the United States shall not be entitled to any compensation.

~~(5)~~ *(6)* The consul-general, consul, vice-consul-general, or vice-consul of the nation of which the employee, whose injury results in death, is a citizen, or the representative of such consul-general, consul, vice-consul-general, or vice-consul residing within the State of Nebraska shall be regarded as the sole legal representative of any alien dependents of the employee residing outside of the United States and representing the nationality of the employee. LEGISLATIVE RESOLUTION 24.

LR 24 was adopted with 23 ayes, 0 nays, and 20 not voting.

Message from the Governor

May 8, 1957

To the President, Speaker and
Members of the Legislature:

Legislative Bill 71 is returned to you without my signature. This bill is vetoed for the following reasons:

The bill restricts the salary of the Secretary of the Game, Forestation and Parks Commission to a sum not to exceed $8,000.00 per annum. I respectfully submit that this action will work a great hardship and injustice upon the people of the State of Nebraska. In the remarks to follow, I am referring only to principles and not to personalities.

The preservation of State Parks, game and fish, and recreational grounds, and to locate and designate such areas in sections of the state most beneficial to the people is vested by statute in the Game, Forestation and Parks Commission, as well as the rules and regulations pertaining to the use, care and administration of such properties. The Secretary of the Commission acts as its director and chief conservation officer and shall be in charge of its activities.

This area of activity is of vital concern to a great majority of Nebraskans. For the most part these activities are paid for directly by the people who buy their hunting and fishing licenses each year. They are entitled to an efficient and adequate service in this area of activity.

Technical training and experience are necessary to provide the people of Nebraska such facilities. Qualified persons in this field are limited. The Federal Government, other states, and private business are bidding for the services of qualified persons in this field. As a result, if Nebraska is to have a qualified person as the Secretary of the Game, Forestation and Parks Commission, it must be in a position to pay the current wage.

It is, because of my interest in the welfare and happiness of the people of Nebraska, relative to recreational activities, imperative that we have as Secretary of the Game, Forestation and Parks Commission, a qualified person who will see that the best possible facilities are provided for Nebraskans in the areas of hunting, fishing and recreation. Since this cannot be done if L B 71 passes in its present form, I feel it imperative on behalf of the people of Nebraska that I veto it.

Respectfully submitted this 8th day of May, 1957.

(Signed) Victor E. Anderson

May 7, 1957

Senator Kathleen A. Foote
Nebraska Legislature
State House
Lincoln, Nebraska

Dear Senator Foote:

You have asked for an opinion as to the constitutionality of Legislative Bills 539 and 540. Legislative Bill 539 provides for weather control districts, in an act described as the Weather Control Act of Nebraska. The districts would have certain powers in a program of weather control, and the authority to levy a tax to finance their activities. Legislative Bill 540 provides for a Weather Control Commission, which would have certain powers in the conduct of artificial weather control modification operations.

The general purpose of both of these acts is to provide a program of weather control in the State of Nebraska, under the supervision of the State of Nebraska and political subdivisions thereof. This power is referable to the police power of the state. The police power is inherent in every sovereignty and permits the enactment of laws, within constitutional limits, to promote the general welfare of the citizens. Montgomery v. Blazek, 161 Neb. 349, 73 N. W. 2d 402. In the exercise of the police power, the state can by legislative action provide the means of alleviating conditions in the public interest, and the choosing of the means and methods of accomplishing such purpose is a legislative function. Omaha Parking Authority v. City of Omaha, 163 Neb. 97, 77 N. W. 2d 862. However, in order that a statute may be sustained as an exercise of the police power, the courts must be able to see that the enactment has for its object the preservation of the public health, safety, morals or general welfare; that there is some clear, real and substantial connection between the assumed purpose of the enactment and the actual provisions thereof; and that the latter do in some plain, appreciable and appropriate manner tend toward the accomplishment of the object for which the power is exercised. Golden v. Barthlomew, 140 Neb. 65, 299 N. W. 356.

We do not know what scientific facts the Legislature may have relied upon in the consideration of these bills, but it is a matter of common knowledge that the people of Nebraska generally are interested in having sufficient moisture for the benefit of agriculture and in preventing hail and severe storms. We are unable to say whether the provisions of the proposed legislation in a plain, appreciable and appropriate manner tend toward the accomplishment of the object for which the police power would be exercised. Legislative Bill 540 states that the ultimate extent to which weather modification may be utilized is speculative. To the degree that the acts meet the standards established for the exercise of the police power, they are valid. As to whether the acts are constitutional in the manner of their application depends upon scientific facts of which we are unaware.

Very truly yours,

CLARENCE S. BECK
Attorney General

RESOLUTIONS

LEGISLATIVE RESOLUTION 25. Re: Legislative Council Study of Higher Education

Introduced by Willard H. Waldo, 21st District, Norman A. Otto, 34th District, and Arnold Ruhnke, 22nd District.

WHEREAS,

(a) Studies show that Nebraska's birthrate has increased fifty-five per cent since 1942 and the current high level show every evidence of continuing.

(b) The number of high school graduates are increasing because the proportion of those dropping out before graduation is declining. It is estimated that the number of graduates will increase by forty-five per cent in the decade starting in 1957.

(c) The proportion of high school graduates going on to college or university has increased from thirty and one-tenth per cent in 1951 to thirty-seven per cent in 1956. Current estimates are that the per cent may reach forty-five or fifty in the next decade, and

WHEREAS, Increasing industrialization of Nebraska, plus the continuing shift of agriculture from a large labor-expenditure industry to a technological one, is placing increasing demands upon the state university for an accelerated research and public education program, and

WHEREAS,

(a) National studies show that the potential supply of trained teachers for college-level work (M.A. or Ph.D. degrees) will be less than one half of the expected demand by 1970.

(b) National competition for existing trained college-level teachers is becoming severe, pushing salary levels upwards at an accelerated rate, and

WHEREAS, The University and the four state colleges must expand facilities for laboratory and classroom instruction if enrollments are doubled, and

WHEREAS, Should the State of Nebraska attempt to enter into regional arrangements with other universities or land grant colleges for contractual tuition program to train Nebraska students in courses of study abandoned by the University or the state colleges?

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NEBRASKA STATE LEGISLATURE IN SIXTY-EIGHTH SESSION ASSEMBLED:

1. That the Legislative Council appoint a committee to make an objective study of higher education which is becoming increasingly necessary to determine questions of policy and report to the next regular session of the Legislature. The report shall contain recommendations as to the following:

(a) Shall enrollments continue on an unrestricted basis for Nebraska residents?

(b) Shall out-of-state students be permitted to enroll on an unrestricted basis?

(c) If the policy shall be to continue the present unrestricted policy, how shall the cost of meeting the national competition for adequate faculty be met?

(d) If the present policy of unrestricted enrollment is continued, how shall adequate physical plant for increased enrollment be met?

(e) Shall junior colleges be brought into the system of state-supported higher education, and if so, on a wholly subsidized basis, or a partially-subsidized basis?

(f) Should tuition charged by the University and the four state colleges be increased to higher levels?

(g) Is there a duplication of services existing within the University or the four state colleges?

Message from the Governor

May 9, 1957

To the President, Speaker and
Members of the Legislature:

Legislative Bill 47 is returned to you without my signature.

I am wholly in accord with the objective which the Legislature had in mind of avoiding double taxation; however, I have discussed this bill with the Attorney General and the Tax Commissioner and they advise me that the bill would go further than I believe was intended, and could be the means of totally avoiding motor vehicle taxation during extended periods of time.

It is because of the possibility of this undesirable consequence that I am exercising my power of veto.

Respectfully submitted this 9th day of May, 1957.

MOTION—Print Statement

STATEMENT

The intent of Section 12 of LB 311 is that the dealer has property rights in his dealership, in buildings, fixtures, lease or leases, operating plant, investment in inventory and goodwill.

If and when his dealership franchise is cancelled, these equities lose a substantial part of their value. The dealer has an investment that should be protected against arbitrary or unfair practices so the dealer must be compensated fairly for the loss he suffers when his franchise is cancelled under such circumstances.

(Signed) Terry Carpenter

Message from the Governor

May 13, 1957

To the President, the Speaker
and Members of the Legislature:

I am presenting for the consideration of your Honorable Body, a bill which I feel is necessary for the continued growth and development of Nebraska. Because I realize the great amount of work and the number of bills still before you, I have exercised my privilege to introduce bills on few occasions. I feel this privilege should be used only in the event of emergencies that arise during a legislative session.

We in Nebraska know that we have a very productive soil and that under normal conditions we can raise some of the finest agricultural products grown anywhere. Our problem is markets at home for the fruits of our labor. All of us have tried hard to bring industry to Nebraska, to make use of these products and to employ of our people. We have been quite successful because during the past three years more than fifty million dollars have been invested in plants in 26 different towns and cities. The latest addition is the Campbell Soup Company operation in Kearney, on which an estimated twelve to fifteen million dollars will be spent for initial plant facilities to use Nebraska grown tomatoes and other products raised by our Nebraska farmers. The City of Kearney has given an all-out effort to this new industry in both time and money, only to find that they meet with an obstacle that cannot be surmounted without the help of the Legislature.

Section 16-685, relating to improvements in cities of first class, prohibits the sale of electricity, water or sewer service beyond city limits. At the urgent request of the Mayor and the City Council of Kearney, I am presenting a bill which provides for an amendment to this section, which would allow the City of Kearney to enter into a contract to sell these services to this new industry, and will permit other towns, when in need, to provide like services. This bill will, in my opinion, be beneficial to the entire State and will aid materially in the progress of Nebraska.

I respectfully request your favorable consideration of this bill.

(Signed) Victor E. Anderson
Governor

UNANIMOUS CONSENT—Print Letter and Clipping

Mrs. Foote requested unanimous consent that the following letter received by Mr. Simmons from Owen J. Boyles, Secretary, Nebraska State Highway Commission, and newspaper article clipped from the Omaha World Herald, be printed in the Journal. No objections. So ordered.

May 13, 1957

Senator Ray Simmons
Legislative Chambers
State Capitol
Lincoln, Nebraska

Dear Sen. Simmons:

In checking the maintenance cost on gravel highways, I find that the average cost is approximately $800.00 per mile per year. Therefore, if the 940 miles taken from the system by the 1955 Legislature was returned by this Legislative Session, there would be an approximate $1,504,000.00 needed for the maintenance for the biennium.

Trusting this is the information requested, I remain,

Yours very truly,

(Signed) Owen J. Boyles, Secretary
Nebraska State Highway Commission

HIGHWAY SAVINGS ESTIMATE IS DOWN—Lopping 938 miles from the State Highway System apparently won't save the State Highway Department as much as originally estimated.

State Engineer L. N. Ress has confirmed that maintenance costs on the 938 miles average well below the state wide figure of $835 a mile for upkeep of gravel highways.

Mr. Ress estimated the average cost on the 938 miles has not exceeded four hundred dollars a mile a year. So the maintenance savings to the State Highway Department can be estimated at about 375 thousand dollars a year after the 938 miles are dropped July 1, 1956.

During legislative debate of the revised highway may which eliminates the 938 miles, Senator K. W. Peterson of Sargent estimated the annual maintenance savings at 830 thousand dollars.

This was based on a statewide average maintenance cost of $835 per mile of graveled highway.

Mr. Ress said the 938 miles include a number of spur roads and others which are not as heavily traveled or intensively maintained as are the more important graveled state highways.

Mr. McGinley Presiding

Mrs. Foote requested unanimous consent that the following excerpts from the Nebraska State Grange News Sheet and the Editorial for the April 29 issue of the Hastings Daily Tribune be printed in the Journal. No objections. So ordered.

Nebraska State Grange News Sheet—

The projection of the sums presently asked for the Highway budget into the 13 year building period yields fantastic figures. The Highway Department has failed to name any over-all sum for the Interstate. Admittedly this would be hard to do, since the full extent of the highway boondoggling cannot be known at this time. But it is quite clear that the highway builders, the Highway Department and the city of Omaha intend to get as much as the taxpayer will stand.

It is particularly important for the State Highway Department to get enlarged revenues now. It is obvious that Federal allocations, presently planned will not cover the costs of the Interstate, especially since Omaha is to be treated with such generosity. Greater State highway revenue will strengthen the demand for more Federal allocations when the time comes. The farmer does not propose to join in this process for working for both sides of the street.

It is well established that present highway revenues will finance a building program considerably in excess of any the state has had before. It is also true that the Department is trying to get money to match Federal allocations several years before they can be used. Why should there longer be any "bewilderment" as to why farmers are developing sales resistance to the Interstate?

Hastings Daily Tribune—

Officials of the State Highway Department, in response to this suggestion, have only said that the north route is more feasible and will serve a more heavily populated area of the state.

They have not so far indicated that a study of the south route will be made. They say the north route is not definite, but in the Highway Department's latest publication entitled, "The Plan Ahead," it states the Interstate Highway will enter "Nebraska from the east at Omaha continuing southwesterly to Lincoln, then straight west to Grand Island, and following generally Highway 30 to North Platte and westward. An interchange near Big Springs will connect with the Denver segment." That sounds pretty definite.

The Department's pamphlet further states, "It will cost a lot of money——but the federal government will pay 90 per cent of the construction figure." The implication is that because the federal government is paying the bulk of the cost why worry about a savings of several millions of dollars by using a shorter route.

But the pamphlet also points out that the critical needs of the state highway system amount to $163 million. In view of this great need it would appear to be good business to at least consider the south route for the Interstate Highway to determine if a construction saving is possible as compared with the north route.

The State Highway Department is supposed to be serving the best interests of the entire state and not just one segment. For some reason it does not appear to be so doing.

Further evidence of this can be found in the pamphlet. For the 1957-59 biennium the Department plans to improve two sections totaling 29 miles on Highway 30. For the same period only one 10 mile section of Highway 6 is proposed. In the current biennium the Department is improving 67 miles of Highway 30 and nothing on Highway 6. This is in addition to much other work that has already been done on Highway 30 in previous years as compared with nothing for Highway 6.

The people south of the Platte River shouldn't be a party to further increases of gasoline taxes until they get some assurance that every effort is being made to make the best use of funds the Department is already receiving. This should include some assurance that the proposed south route for the Interstate Highway will be given serious consideration.

Mr. Lautenschlager moved that the enacting clause be stricken from LB 375.

Motion pending.

RESOLUTIONS

LEGISLATIVE RESOLUTION 27. Re: Unfair Labor Practices

Introduced by Ray C. Simmons, 11th District.

WHEREAS, secondary boycotts are used by the officials of labor unions to bring economic pressure upon neutral employers or employees to compel workmen to join labor organizations, to force union members to switch their union affiliation, and to win collective bargaining contract demands; and

WHEREAS, organization or "racket picketing" is a technique used by some labor union officials to bring economic pressure upon an employer to make him force union membership on his employees; and

WHEREAS, secondary boycotts and racket picketing interfere with and disrupt the right of free collective bargaining and voluntary union membership guaranteed in Section 7 of the Labor-Management Relations Act; and

WHEREAS, the "hot cargo" clause in contracts of unionized carriers avoids the responsibility of these carriers in rendering adequate service to the general public; and

WHEREAS, the use of the secondary boycott by the teamsters union gravely affects the welfare of numerous Nebraska communities; and

WHEREAS, some teamsters union organizers threaten by secondary boycotts to organize all of the truck lines of Nebraska against the will of both employees and employers; and

WHEREAS, some teamsters union organizers plan eventually by secondary boycotts to organize warehousemen, distributors, and even retailers of Nebraska, all against the will of both employees and employers, so as to get a strangle hold on all Nebraska business activities and even the state itself; and

WHEREAS, there is now pending in the Senate of the United States, S. 76, introduced by Carl T. Curtis of Nebraska, a bill to make illegal all forms of the secondary boycott and to outlaw racket picketing.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NEBRASKA LEGISLATURE IN SIXTY-EIGHTH SESSION ASSEMBLED:

1. That the Legislature respectfully memorializes the Congress of the United States to amend the Labor-Management Rela-

tions Act by enacting S. 76 introduced by Senator Carl T. Curtis, to end completely these types of unfair labor practices.

2. That authenticated copies of this memorial be transmitted to the President of the Senate and the Speaker of the House of Representatives of the United States, to each of the United States Senators and Representatives from Nebraska, and to the Secretary of Labor of the United States in Washington, D. C.

Message from the Governor

May 22, 1957

To the President, the Speaker
and Members of the Legislature:

Several requests have been made of my office to introduce a bill in place of L. B. 47, which was returned to you without my signature.

When L. B. 47 was returned, I commented that there was much merit in the bill, but that the wording would provide an opportunity for anyone who might take advantage of it to escape automobile taxes entirely by transferring ownership to another person and then transferring ownership back to the first person. This, of course, would not be equitable.

Because there were only two dissenting and thirty-eight favorable votes cast for L. B. 47, it is quite clear that a majority of your Honorable Body favored the bill, but that this one feature had escaped your attention.

It is because of this fact, and because I believe you feel the bill has already been fully discussed and that it will not take added time in explanation, that I am willing to introduce this new bill. For these reasons and at the request of the original introducers, I feel that I should provide an opportunity for consideration of this bill.

Respectfully submitted this 22nd day of May, 1957.

(Signed) Victor E. Anderson
GOVERNOR

RESOLUTIONS

LEGISLATIVE RESOLUTION 29. Re: Legislative Council Study of Secondary Boycotts

Introduced by Ray C. Simmons, 11th District.

WHEREAS, the use of the secondary boycott by the Teamsters Union gravely affects the welfare of numerous Nebraska communities; and

WHEREAS, the union movement as a whole suffers from the use of the secondary boycott by a few irresponsible union organizers entering Nebraska from outside the state.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NEBRASKA LEGISLATURE IN SIXTY-EIGHTH SESSION ASSEMBLED:

1. That a Legislative Council committee be appointed to study the use of secondary boycotts in Nebraska, particularly by the

Teamsters Union, determine their effect on the state, and report their findings to the next regular session of the Legislature, including any recommended legislation.

Referred to the Legislative Council Executive Board.

LEGISLATIVE RESOLUTION 30. Re: Legislative Council Study of Registration of Motor Carriers

Introduced by August Wagner, 26th District, and Peter H. Claussen, 16th District.

WHEREAS, Increasing evidence is appearing which indicates some serious shortcomings in existing laws and regulations relating to the registration of motor trucks, truck-tractors, and trailers and the transportation of certain types of commodities by motor carriers; and

WHEREAS, At the present certain types of vehicles may be registered and a fee be paid based upon factory-rated capacity, regardless of the actual capacity of such vehicle, while other vehicles are compelled to be registered and a fee be paid upon the basis of the actual load carried, as a result of which it appears that certain types of vehicles may be receiving an unfair advantage; and

WHEREAS, Official records show a very marked increase in the number of vehicles being registered and licensed under the Farm and Local Truck classification, as compared with the number of vehicles being registered and licensed under the Commercial Truck classification; and

WHEREAS, Circumvention of the spirit and intent of existing laws and regulations in the field of motor transportation, by means of subterfuge, appears to be increasing; and

WHEREAS, It appears that some undesirable competitive practices have resulted in the field of motor transportation by reason of the operations of certain types of nonresident truckers and so-called "wildcats"; and

WHEREAS, It appears that a very substantial increase in revenue for highway purposes would result if all trucks, truck-tractors, and trailers were required to be registered and pay fees upon the uniform basis of actual net ton load carried, even with appropriate exceptions or tolerances in the case of bona fide farm trucking; and

WHEREAS, Under existing law and regulations certain types of vehicles appear to be quite restricted with respect to the type of commodities which may be carried on return trips, although a comparatively high registration fee is applied to such vehicles, as a result of which some avoidable economic waste and inefficiency may exist; and

WHEREAS, Legislative Bills 575 and 576, which were indefinitely postponed in committee at this session, were introduced with the view of correcting some of the undesirable conditions herein referred to, but it is deemed that the entire situation is one which required considerably more study and exploration to the end that more complete and comprehensive legislation may be brought forward.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NEBRASKA LEGISLATURE IN SIXTY-EIGHTH SESSION ASSEMBLED:

1. That the Legislative Council appoint a committee to conduct a full and complete study and investigation of the following matters:

(a) All phases of the licensing, registration, and payment of fees with respect to all trucks, truck-tractors, and trailers.

(b) The desirability of assessing registration fees for all such vehicles upon the basis of net ton-load carried, with possible exceptions or tolerances in the case of bona fide farm trucking.

(c) Methods whereby inequities may be avoided with respect to the imposition of fees upon various types of such vehicles, if a uniform fee based upon net ton load carried is not deemed feasible.

(d) Methods by which economic waste and inefficiency, due to unnecessarily restrictive regulations with respect to the type of commodities which may be carried on return trips by certain types of vehicles, can be eliminated.

(e) Methods by which circumvention of the spirit and intent of laws and regulations and undesirable competitive practices in the field of motor transportation can be eliminated.

(f) Methods of increasing revenue from registration fees imposed upon such vehicles, without creating unreasonable burdens or discrimination.

2. That the committee report its findings, together with such recommendations as it may deem feasible, to the next regular session of the Legislature.

Referred to the Legislative Council Executive Board.

LEGISLATIVE RESOLUTION 31. Re: Federal Aid for School Construction

Introduced by John E. Beaver, 12th District.

WHEREAS, In recent years, through the efforts of certain national groups, there has developed a strong movement to have the federal government step into or invade the education field, particularly in the area of school construction, on the pretext that the state and local authorities are unable to cope with the school problem, whereas the real reason, therefor, is to force more money for school construction by communities which do not feel the need for such construction; and

WHEREAS, Any such movement is objectionable upon several grounds among which are:

(a) Federal financing eventually means federal control and supervision;

(b) No state has demonstrated or claimed its inability to meet its school building responsibility;

(c) Federal aid does not lessen the cost of construction but adds a further cost of administration to the school construction program; and

WHEREAS, The Education Committee of the Commission on Intergovernmental Relations has said:

1. The American people have built up, over the last century and a half, the greatest school system in the world under state and local responsibility.

2. Federal aid is not necessary either for current operating expenses for public schools or for capital expenditures for school facilities (buildings and classrooms).

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NEBRASKA LEGISLATURE IN SIXTY-EIGHTH SESSION ASSEMBLED:

1. That the Congress of the United States be, and it is hereby memorialized to reject any and all efforts to obtain passage of any additional legislation by the terms of which money would be appropriated and made available to the states through grants-in-aid or otherwise for construction of schools and that the matter of school construction continue to be a responsibility of the several states and individual school districts thereof.

2. That a copy of this resolution be sent to the President of the Senate and the Speaker of the House of Representatives of

the United States, and to each of the United States Senators and Representatives from Nebraska.

May 23, 1957

Senator George Syas
Nebraska Legislature
State House
Lincoln, Nebraska

Dear Senator:

You state that the enacting clause was inadvertently omitted from a bill being considered by the legislature, and you ask whether the enacting clause may now be added to the bill. In our opinion there is no constitutional reason why the legislature could not add the enacting clause at this time. It is our opinion that if the enacting clause is on the bill at the time of its final passage, the act is valid.

The procedure to be followed in adding the enacting clause at this time is of course a function of the legislature, and not of this office, since the constitution provides that the legislature determines the rules of its procedure.

Very truly yours,

CLARENCE S. BECK
Attorney General

79-536. Each school district created by merger with other districts, *except as provided by section 79-1002,* shall provide for the payment of debts created by school districts, or other school organizations, superseded by the merged district, when such debts shall have been incurred in the erection of schoolhouses or for other school purposes. If any portion of such debt shall be in the form of bonds, if issued for a valuable consideration, the holder or holders thereof, upon surrendering the same to the board of education, shall have the right to demand, and it shall be the duty of the board, in the name of the merged district, to cause to be issued other bonds of like amount and of like tenor and effect as to payment of principal and ~~inteerst~~ *interest* as the bonds surrendered. In case of change of boundaries by petition under section 79-402, the petition shall specify that such subsequently issued bonds shall remain the obligation of the issuing district. The board of education of such metropolitan school district shall have authority to refund such bonds in accordance with the provisions of section 10-717, and to substitute therefor bonds which shall be a lien only upon the property within the district issuing the original bonds.".*

2. Renumber original sections 2 and 3 as sections 3 and 4 respectively.

Nebraska State Legislature
State Capitol
Lincoln, Nebraska

Dear Senator Syas:

In reply to your inquiry concerning the accreditation status of the School of Nursing of the University of Nebraska, the following represents the facts.

The School of Nursing is not accredited by the National League for Nursing. Furthermore, accreditation was denied by this body during the past year. The National League for Nursing is the only national organization authorized to accredit schools of nursing.

Our School of Nursing is accredited by the State Board of Nursing in Nebraska. This latter organization is the legal body in this State. Under authority of the State Board of Nursing, we are authorized to continue operating but our graduates do not have full status in other states unless the School is accredited by the National League for Nursing.

I hope that this is the information you need.

Sincerely,

(Signed) Clifford M. Hardin

Mr. Lautenschlager requested unanimous consent that the letter from Mr. McHenry which was read from the rostrum on May 27, 1957, be printed in the Journal. No objections. So ordered.

Mr. President,
Members of the Legislature:

Realizing that during the discussion on the University Budget you will be faced with a great number of figures, I feel it might be well to present some figures that are factual because they have already happened.

Please remember that we have had, now have, and will continue to have, a great University of Nebraska. I know that the members of the Budget Committee who have placed this majority report before you have not had the time or money to wine, dine, and entertain you as the supporters of the well organized minority report have done, which has been going on for the past year, and a great amount of this activity has been shown lately.

Six years ago, in January 1951, the Budget of the University of Nebraska from the general fund was $9,000,000. In January 1957, which means at present, it is $17,800,000, very near doubled in six years. During the 1951 Session, the University Budget was increased to $12,000,000. In the 1953 Session it was increased to $15,000,000. In the 1955 Session $3,800,000 was asked for. The Budget Committee recommended that the Legislature increase the University Budget $2,800,000 which was done, which brings us up to date the total of $17,800,000.

At each request during these years, the University said they must have most of the request for the increase in salaries. This year they came before the Budget Committee asking for an increase of five and one-half million dollars and asking this when they should have known of the bad economy in a great part of our State.

I was privileged to sit in at the Governor's Budget hearing on several institutions, in particular the presentation of the University of Nebraska budget. After it had been presented by Chancellor Hardin and a goodly number of Deans, members of the faculty, and also Public Relations personnel, our Governor asked them to try and trim it down. Their reply was, "When they had asked for requests for the next biennium from all the different departments of the University of Nebraska, the total amount requested was in the neighborhood of $9,000,000, and in trimming then to the present request of $5,500,000, they had gone as far as they could in reducing the request." The Governor asked them again to take the Budget back and they said they would need all of the $5,550,000. When the Governor's budget came out for an increase of $3,200,000, they seemed very much disappointed.

When your Budget Committee, after spending many hours, and for the first time in history, had all the present salaries of those employed by the University, and proposed salaries for the next two years, and going over every request carefully, gave them an increase of $2,200,000, which was $1,000,000 less than the Governor's budget, they now turn around and say, "Give us the Governor's budget and we can get along fine." Consistency, where art thou?

Remember, we have had, now have, and will continue to have a great University of Nebraska.

(Signed) William A. McHenry

May 28, 1957

Mr. Hugo Srb, Clerk
Nebraska State Legislature
Sixty-eighth Session

Dear Mr. Srb:

The State Highway Commission acknowledges with thanks your Resolution 26. It is the desire of this Commission to carry out the wishes of the people of Nebraska as expressed in the enactments of the Legislature.

We recognize the needs of our State Highway System as pointed out in your Resolution.

We are mindful that authorization was granted to the Highway Department in LB 187 to redesignate, relocate, redetermine, or recreate the State Highway System, with the written advice of this Commission and the consent of the Governor.

In the exercise of this authority consideration must be given to the numerous factors set out in the law as well as the revenues available from time to time.

We have held forty-eight hearings, made thirty-six inspections, and added twenty-four miles to the system. Many of the hearings were requests to improve roads now on the system rather than the adding of new roads.

We appreciate the advice of your Honorable Body, and we wish to assure you that we will give serious consideration to the highway problems faced by the citizens of Nebraska.

Respectfully submitted,

NEBRASKA STATE HIGHWAY
COMMISSION

Reconsideration of LB 112

Mr. Beaver called up the pending Otto motion found in the Legislative Journal for the One Hundred-second Day, for consideration at this time.

Committee to Escort Governor

The President appointed the following members to serve on the committee to escort Governor Anderson: Beaver, Wood, and Aufenkamp.

The committee withdrew and escorted the Governor to the rostrum where Governor Anderson delivered the following message:

MESSAGE FROM THE GOVERNOR

Mr. President, Mr. Speaker,
Members of the Legislature:

The need for economy in State spending—the need for thrift, efficiency, and better control of spending State tax dollars, and the need to "hold the line" in determining the State budget brings me before you this morning.

In my budget message last January, I mentioned facts well known to you, that Nebraska agriculture and industry were experiencing serious difficulties because of drouth. We are grateful that recent rains indicate improved crop prospects. We know that those prospects have yet to materialize into an improved tax paying ability of our citizens. Many farms, homes and business enterprises are heavy with debt; so heavy in fact that at this time they cannot and should not carry an increased tax burden.

It is with compassion for those citizens who pay the tax bill, and whose ability to pay taxes is strained by today's economy, that I bring to you certain recommendations. It is difficult to point to positive practical measures to lessen the tax burden by an overall reduction of the State budget. I am convinced, however, that a re-examination of the State Institutional Building appropriations will permit adoption of measures to "hold the line" against any increase in property taxes for State Government.

The recommendations that I am about to submit are the result of a survey made during the past six weeks by an inspection team made up of the State Fire Marshall, E. C. Everson, the Board of Control Building Engineer, Carl Botsford, the Board of Control Administrative Assistant, Harold Peterson, and myself.

The first concern in making the inspection was the lives and safety of those who are in our State institutions. It was also my desire to have first-hand information on the welfare and needs of these institutions, and to give the Legislature the advantage of this information. I was particularly impressed with the maintenance and good condition of our State buildings.

We can be proud of the way we are taking care of our less fortunate people. I saw nothing to be ashamed of and saw many things of which we can all be proud.

The inspection team placed the building needs in three categories: Emergency Needs, Critical Needs, Basic Needs, for buildings to be replaced as they become obsolete. I am most pleased to report that we have found nothing in the Emergency and Critical Needs category. Naturally, there will be some basic needs in the years to come.

The past ten year period has placed our institutions in a remarkably good condition, making it possible to effect a reduction in the building fund mill levy.

I am aware of the fact that there were some who criticized the Board of Control for submitting a four-year program instead of a ten-year program to the Legislative Council. However, the Board is conservative—as it should be—and could foresee that a four-year program would take care of their needs.

Keeping in mind the three categories I have mentioned, I shall briefly report to you the following facts relative to the survey:

LINCOLN STATE HOSPITAL

The building known as the Center building was constructed in 1872. It has two wings, housing about 234 patients, and the center section is used for administration offices. The Board of Control plans to dismantle the two wings of this building when the Mental Hospital for Tubercular patients and the Security Hospital Building are completed this Fall. When this is accomplished all patients will be housed in fireproof buildings, and there will be no patients housed in buildings constructed prior to 1912. While the section housing the administration offices in the Center Building is old, we did not place it in the critical needs category because its construction is sound and maintenance is good.

NORFOLK STATE HOSPITAL

The overall picture at Norfolk is good. There are four cottages, each housing about 35 men patients who are not bedfast, that are not of fireproof construction. They are, however, equipped with sprinkling systems and the Fire Marshal felt there was no real danger in the event of fire. Attendants are on duty 24 hours a day in these buildings, and most of these patients are only mildly retarded. They are referred to as "working patients." One of the cottages was remodeled in 1948. If the present rate of discharge continues, we could probably abandon these buildings in the near future. At the time of the inspection there were approximately 100 vacant beds in the Norfolk State Hospital.

HASTINGS STATE HOSPITAL

Of the three mental hospitals, Hastings is in the best physical condition. Upon completion of the remodeling of the Ward Building, all patients will be housed in fireproof buildings and there will be approximately 100 vacant beds.

BEATRICE STATE HOME

There are three buildings in Beatrice which are not fireproof. These buildings house approximately 125 patients who are not bedfast but are physically normal. They are mildly retarded boys 17 to 30 years of age and are called "working boys". Attendants are on duty 24 hours a day and while the buildings are old they are of sound construction. To avoid the possibility of danger because of fire, the Fire Marshal suggests installing sprinklers from one of the old buildings to be dismantled. Also, by doing some remodeling we can provide fifty additional beds. Part of this remodeling is underway and will account for about 25 additional beds. The power plant at Beatrice will no doubt need some additions in the next few years.

GIRLS' TRAINING SCHOOL—GENEVA

I did not visit this school because I was advised by the Board of Control there were no needs when the present buildings are completed. This construction is being done with funds now on hand.

SOLDIERS AND SAILORS HOME—GRAND ISLAND

I did not visit this Home because I was advised by the Board of Control that there are no immediate needs. The maximum patient capacity of this Home is 450 and the present population is 210—one of the lowest in years.

BOYS' TRAINING SCHOOL—KEARNEY

When we visited this institution in 1949, I felt it was one of the worst physical plants in the State. A great deal has been done by the construction of three new dormitories and a new school building. One basic need is the construction of one more dormitory, to replace one which is not fireproof, though it does have a sprinkler system.

TUBERCULOSIS HOSPITAL—KEARNEY

In 1940 this hospital was rebuilt to accommodate 250 patients. Today there are 130 patients and 145 employees.

Dr. Nutzman advised me he could take care of 50 to 60 more patients with the present staff. I am asking the Board of Control to see if a compact with some other state, for the care of their tubercular patients can be made, or, to try to find some use for the building not needed for the present patients.

STATE PENITENTIARY—LINCOLN

The immediate needs at this institution have been met.

NEBRASKA SCHOOL FOR THE DEAF

I did not visit this institution because the Board of Control advised me the needs have been taken care of by the new buildings which have been constructed under the present building levy.

SCHOOL FOR THE BLIND

At the present time the main building in which the school is located has two wings, and houses the students and faculty. The Board of Control is now building a new dormitory, costing $500,000, which will be the finest for blind students in the 48 states. It will also house a part of the staff. This will permit the dismantling of the two wings and no one will be living in the main building. The center section will be kept for school purposes. While this school building is old its construction is sound and its maintenance is good. We feel it will take care of the immediate problem. The building has a sprinkler system, a fire alarm and fire escapes.

REFORMATORY FOR WOMEN

The two buildings housing the 42 inmates are completely fireproof and in excellent condition.

HOME FOR DEPENDENT CHILDREN

There are no immediate needs for this Home. A new school building was constructed under the present building levy.

MEN'S REFORMATORY—LINCOLN

There are no critical needs at this institution. A new gymnasium might be desirable in the near future.

ORTHOPEDIC HOSPITAL—LINCOLN

The committee could see no immediate need at this hospital for any building. The patient load was 55 when we visited the hospital. The patient capacity is over 100. There were eight babies in a ward which is not of fireproof construction, but it does have a sprinkler system. The Fire Marshal suggested to the Board of Control that these babies be moved to a fireproof section of the hospital.

(end of report)

A ½ mill levy will produce 3 million dollars during the 1957-59 biennium. I realize there are some basic needs for the Normal Schools and the University of Nebraska; however, I feel that these needs can be met from this 3 million dollar fund.

I recommend that the Institutional Building Levy be reduced to ½ mill for two years, and that the present ¼ mill Medical School Building Levy be discontinued. When all taxes collected, and current construction contracts paid, the College of Medicine will have about $800,000 in its building fund. Any building needs in excess of this amount can also be taken from the 3 million dollar fund.

It is estimated that there will be $850,000 available for construction in the National Guard building fund. Since the Federal Government pays 75% of the cost of armories, the balance should be sufficient to meet the needs of the Guard for the next biennium.

When the 1.1 mill institutional building fund was created for a 10 year period in 1947, there was an emergency need for building construction and maintenance accumulated during the years of depression, and during World War II, when materials and labor were not available. That emergency was met by the 10 year building program. It does not exist today. We are faced with a rightful demand for economy. We must effect savings and practice thrift where possible. That will be done without sacrifice or injury to our state building requirements by reducing the building levy to ½ mill for two years, and by allocation of all funds on a strict need basis.

It is my strong feeling that the distribution of the building fund to the various departments should NOT be made by a predetermined formula. Establishing a formula in advance encourages building when actual need does not exist. Each department should be required to PROVE its need, and allocations from the fund should be made on the basis of actual need ranked in the order of importance to the State.

For this reason, I urge the creation of a State Building Allocation Committee, to study the needs and make the priority decisions. The Committee might properly consist of the Governor, Lt. Governor, Speaker, Chairman of the Budget Committee and Chairman of the Committee on Committees. This Committee would represent a cross section of legislative and executive branches of State Government with a background of experience in the field concerned.

I might further recommend that the Committee make a study to guide the 1959 Legislature in providing for future state building requirements.

In any building program we should be guided by some basic principles. When we build we should be sure that we are conserving our dollars, spending wisely and not wasting. We should plan well in order to avoid the costly error of either over or under building. We should make an honest attempt to do our best for the State in supplying its people with their requirements—without frills or unnecessary costs, and, we should always consider the ability of the taxpayer to pay. I believe that the creation of the Allocation Committee would be a sound first step in abiding by those principles.

I realize that the recommendation of a ½ mill levy is similar to the recommendation mentioned in my original budget. However, my recommendation today is for a two year period rather than a 10 year period. I presented what I considered a realistic budget at that time. Since my budget message, there have been some laws enacted which will increase the amount of tax dollars to be collected during the next biennium, consequently, it is even more important now, that the building levy be reduced to a half mill, at least for the next two years.

Reducing the building levy to ½ mill for the next two years and providing for a Committee to study the necessary building needs for the future would not only afford us a further opportunity of applying sound business practices to the construction of state buildings, but would also effect a savings that would offset the increases mentioned before.

In conclusion, I am convinced that we no longer have a state building emergency; that the people of Nebraska will suffer no ill consequences, nor will our future building needs be imperiled if this program is adopted.

I know that we share the same objective. It is to report to the people of Nebraska when you adjourn, that we are constantly aware of their tax burdens and our economy, that we have collaborated to the end, that by thrift, by efficiency in government, by sound business practices, and by a program that insures careful planning for future state building needs, they are to enjoy an adequate and improved State Government without increase in their property taxes.

Messages from the Governor

June 3, 1957

The President, the Speaker, and
Members of the Legislature

Gentlemen:

Governor Anderson has requested me to inform your Honorable Body that on June 1, 1957, he approved L. B. 370, 372 and on June 2, 1957, he approved L. B. 579, 587, 234, 242, 287, 445 and 602.

Respectfully submitted,

(Signed) A. C. Eichberg
Administrative Assistant

June 3, 1957

To the President, the Speaker,
and Members of the Legislature

I have been requested by the Mayor and City Council of Omaha, Nebraska, to introduce a bill which provides that the City of Omaha may enter into a lease-purchase agreement with the Federal Government, for the purpose of constructing a new Post Office building for the City of Omaha. This bill permits the City to issue bonds payable solely out of the proceeds to be derived from the lease-purchase agreement.

You are probably aware of the great need for a new Post Office in Omaha. The ground was acquired some years ago and building has been scheduled for sometime. However, because of the new Post Office policy on the construction of buildings under a lease-purchase agreement, it now becomes necessary for the City of Omaha to provide these funds.

No one realizes more than I the desire of the Legislature to adjourn this session; however, I feel this legislation comes within my policy on the introduction of bills—it is something which could not have been introduced prior to this date.

I endorse and support this legislation and will appreciate your consideration before adjournment.

Respectfully submitted this 3rd day of June, 1957.

(Signed) Victor E. Anderson
GOVERNOR

Message from the Governor

June 4, 1957

To the President, the Speaker,
and Members of the Legislature:

This morning I had a conference with the seven members of the Omaha legislative delegation and Senator Dooley from the 3rd District, with reference to introducing this bill to authorize the Board of Education of Omaha to contract with the Federal Government or any agency thereof to supervise constructions of school facilities and to maintain and operate schools for children of parents residing on Federally owned land outside the boundaries of such district. In this connection, the Strategic Air Command has presented a problem in which they are very much interested.

Approval has been received from the Federal Government for the construction of 400 housing units on a site presently being procured near Offutt Air Force Base. This land is located within the geographic limits of the Ft. Crook School District No. 40.

The Ft. Crook school district has in operation at the present time one frame, two-room schoolhouse with two teachers and approximately 30 students. The new Capehart Housing Development will have from 150 to 300 school age children.

It is the desire of General Curtis LeMay, Commander-in-Chief of Strategic Air Command, that adequate educational facilities for the dependent children of Air Force personnel who will live in these units be provided, and, in connection with the Capehart Housing, the Federal Government will provide a new school building and all of the cost of teaching these children.

Since passage of this bill would not require the expenditure of any local or state tax funds, and the areas surrounding Omaha would in no way be affected by this legislation—it would take away nothing from Bellevue or present facilities in Ft. Crook— and, representatives of the Omaha School District have indicated they are in accord with this proposed legislation, I urge your favorable consideration of this bill.

We all realize the importance of the Strategic Air Command operations to the defense and safety of our Nation. We in Nebraska should be eager to provide the necessary facilities for these operations, and to cooperate in every way possible in maintaining our excellent relationship.

The Commander-in-Chief of the Strategic Air Command has expressed a preference for the Omaha Public School System to operate the Capehart School rather than to have it under the jurisdiction of the Ft. Crook School District, and, for the reasons I have cited, I believe this bill should be enacted into law.

Because it is not my desire through this bill to hold the Legislature in session any longer than you would normally stay, I would like to suggest to your Honorable Body that you suspend the rules and hold the public hearing on this bill Friday, June 7. If the bill comes out on General File on that same date, it could come up for final vote on the following Thursday, June 13, 1957.

Respectfully submitted this 4th day of June, 1957.

LEGISLATIVE BILL 612.

Mr. Carpenter requested unanimous consent that the letter to Mr. Munnelly from H. G. Hamilton, Assistant Attorney General, be printed in the Journal. No objections. So ordered.

June 4, 1957

Senator John P. Munnelly
Nebraska Legislature
State House
Lincoln, Nebraska

Dear Senator Munnelly:

You have inquired as to the validity of a proposed legislative act attached hereto. The proposal in general provides that cities of the first, primary or metropolitan class may issue revenue bonds to finance the construction of buildings to be leased to the federal government on a lease purchase agreement. The act further provides that said bonds may be issued by authority of a resolution or ordinance of the mayor and city council and that no other authorization for the issuance of the bonds would be required.

Your specific question is whether or not this proposal would be valid as against the home rule charter provisions of the City of Omaha.

Section 5.28 of the Home Rule Charter of Omaha provides, in part, as follows:

> "No general obligation or revenue bonds of the city shall be issued until authorized by a majority of the electors voting on the question as to their issuance. * * *."

Article 11, Section 2, of the Constitution of Nebraska, which authorizes the adoption of home rule charters, has been interpreted to mean that the legislature cannot legally adopt a law which is in conflict with any provision of a home rule charter and which deals with purely municipal matters. Nagle v. City of Grand Island, 144 Neb. 67, 12 N. W. 2d 540. See also, City of Sapulpa v. Land, 101 Okla. 22, 223 Pac. 640. Conversely, the rule could be stated to be that the legislature may adopt laws that are in conflict with the provisions of a home rule charter only if such laws are of general state-wide concern.

The determination of the question of what is of purely local concern and what is of state-wide importance is not capable of easy solution and must be determined from the facts in each individual case. However, it has been said that the trend of jurisdictional decisions appears to sanction an enlargement of the powers of the municipality for self-government rather than a curtailment of such powers. Sandell v. City of Omaha, 115 Neb. 861. It was said in that case that there is reasonable assumption that the city, in the formation of its charter, knows better than the legislature how to anticipate and to enact needful city ordinances.

Your attention is invited to the fact that the proposed legislation affects only cities of first, primary, or metropolitan class. In Van Gilder v. City of Madison, 267 N. W. 25 (Wisc.), it was held:

> "* * * When the Legislature deals with local affairs and government of a city, if its act is not to be subordinate to a charter ordinance, the act must be one which affects with uniformity every city. If in dealing with the local affairs of a city the Legislature classifies cities so that the act does not apply with uniformity to every city, that act is subordinate to a charter ordinance relating to the same matter. A charter ordinance of a city is not subject to an act of the Legislature dealing with local affairs unless the act affects with uniformity every city. State ex. rel. Sleeman v. Baxter, supra. * * *."

We are unable to determine that the erection of buildings by a municipality to be leased to the federal government is a matter of state-wide concern. It has no connection with the problems of taxation, police, fire prevention, eminent domain, or other questions which have been held to be matters of state-wide concern. See 37 Am. Jur., page 717.

It is difficult to imagine how the construction of a building in Omaha or Lincoln for use by the federal government would have any effect on other municipalities in the state.

It is true that the proposal in section 2 declares that such activities are of state-wide importance and are not matters of mere local concern. Although a legislative determination of what is a local affair or matter of state-wide concern is entitled to great weight, the rule is well established that the true character of such matters cannot be changed by legislative declaration. Van Gilder v. City of Madison, *supra;* State ex rel Beck v. City of York, 164 Neb. 223.

In view of the foregoing it is our opinion that the proposed legislation is invalid insofar as it conflicts with the home rule charter provisions of the City of Omaha requiring approval by the voters prior to the issuance of revenue bonds.

Very truly yours,

CLARENCE S. BECK
Attorney General

If the question is submitted at a special election, the vote for the purchase or acquisition of such real estate or the purchase or erection of such facility or facilities shall equal at least a majority of the votes cast at the last preceding general election. MOTION—Introduce Bill

Mr. President: I move that the Committee on Judiciary be permitted to introduce a bill, the purpose of which is set forth in the following statement. (Signed) Donald F. McGinley, Chairman

STATEMENT—Introduce Bill

This bill corrects an ambiguity in the point system statute. The Director of the Division of Motor Vehicles deducts points from drivers for some traffic violations.

The form submitted to the Department is furnished by the Department to the Courts. It is an abstract or summary of the judgment of conviction. Some language in the statute refers to a *certified copy of the judgment* being necessary, rather than a summary of the judgment.

The Committee is informed by the Division of Motor Vehicles that the abstract or summary form has been challenged in a case on appeal. It would be highly desirable to clarify the wording of the statutes. No one knows what the result will be on appeal, but if the point of challenge is upheld, it could be disastrous to the entire point system.

In view of the uncertainty, the Committee felt it better to close up any possible loophole. It simply provides for a continuance of what has been administrative practice. It involves no change in administrative procedure or practice by the courts or by the state.

(Signed) Donald F. McGinley, Chairman

Permission to introduce the bill granted with 25 ayes, 5 nays, and 13 not voting.

REPORT OF SPECIAL COMMITTEE FOR LEGISLATIVE RESOLUTION #2

Legislative Resolution No. 2 directed your Committee to make an investigation of the case of State of Nebraska vs. Donald F. Robertson, the reasons for its dismissal, and to report to the Legislature. In this case it was alleged that Mr. Robertson illegally shot a game bird from a public highway in Johnson County on November 11, 1955, in violation of Section 37-501, R. S. Nebraska 1943.

SCOPE OF INVESTIGATION

The Committee limited the scope of its investigation to the determination of the following matters:

1. Whether there was evidence sufficient to sustain a finding of guilt that Donald F. Robertson shot a game bird from a public highway on November 11, 1955, in violation of Nebraska statutes.

2. Whether the County Attorney of Johnson County acted properly, in his discretionary capacity, in dismissing, on July 6, 1956, the complaint filed against Donald F. Robertson in Johnson County.

3. Whether there was any justification on the part of Melvin O. Steen, Director of the Game Commission, in causing the dismissal of the above-mentioned complaint.

4. Evidence of prejudice and bad feelings between members of the Game Commission and its law enforcement officers if, and only if, such evidence bears on the (a) truth of the charges against Mr. Robertson, or (b) question as to whether Melvin Steen was justified in causing the dismissal of the complaint against Robertson.

The rules for conducting the investigation allowed the various parties to be represented by counsel of their own choice and there was no objection from the parties concerning the broad plan established by the Committee for the procedural order of the hearing.

FINDINGS OF FACTS

The Committee findings of fact and opinions and recommendations are stated in detail as follows:

1. On November 11, 1955, at about 2:00 PM, Donald F. Robertson, member of the Game Commission; Paul Gilbert, Secretary of the Game Commission; Harland Huppert, Conservation Officer; and Robert Heinzelman, Car Dealer of Falls City, were hunting in Johnson County, Nebraska.

2. Officer Huppert testified positively at the hearing that he saw Mr. Robertson shoot at a quail while Mr. Robertson was standing in or near the center of a dirt country road. However, Huppert did not make mention of a violation to Mr. Gilbert or Mr. Robertson on the day of the hunt. He did converse with Robert Heinzelman about it on the return trip to Falls City.

3. Upon advice from Heinzelman's doctor, the Committee did not insist upon Mr. Heinzelman's personal appearance before the Committee. However, his sworn affidavit was accepted. Also, two members of the Committee questioned Heinzelman at length in a private meeting. These members believe that Heinzelman's affidavit accurately reflects his viewpoint at the time of the hearing.

4. Mr. Heinzelman, in a written statement given in April of 1956, stated that Mr. Robertson fired at the bird twice, killing it on his second shot, and that Robertson's position "was directly in the middle of the road." However, in an affidavit of February 15, 1957, Heinzelman modified this statement as follows: ". . ., when I actually can remember looking at Robertson, . . . at that time he was standing near the center of the road and breaking his gun to remove the spent shells. From the report of the gun and from his position at the time I faced him, I assumed that he must have shot from the road, although I am not at all certain just where he was standing when the bird flushed." The same affidavit also states: "I later realized that from a legal standpoint, I absolutely could not swear that I knew Robertson's position when the shots were fired."

5. There was testimony that Gilbert, in a conversation with William Cunningham, District Supervisor, indicated that Robertson shot the quail; in conversations with Leon Sprague and Frank Button that Robertson did not shoot from the road; in a conversation with Roy Owen that he did not see the shooting though the conversation suggested it might have occurred; and in a conversation with Gilbert's wife that he did not see Robertson shoot the quail.

6. Robertson testified positively at the hearing that he was standing off the road at the fence line at the time he shot the quail; that Huppert was behind a clump of bushes where he could not have seen Robertson's position at the time Robertson shot; that Heinzelman was looking in the other direction and did not see Robertson's location at the time the latter shot the quail; and that Robertson immediately after shooting ran onto the road, where he unloaded the spent shells from his gun.

7. Section 37-501 provides that "It shall be unlawful (1) to shoot from any public highway at any bird or animal protected by this act." Quail come within this protection.

8. There was uncontradicted testimony by several conservation officers that it is a policy of the Game Commission to consider it as a violation of law for a hunter to shoot from afoot from the surface of a road; that it is a policy of the Commission to prosecute such violations, and that a number of hunters have been so prosecuted.

9. Paul Gilbert, as Secretary of the Game Commission, told Bill Cunningham, who later inquired about the incident, that Gilbert would handle this matter.

10. Paul Gilbert was sick and not at work during extended periods during the winter of 1955-56 and died on April 11, 1956, taking no action on the shooting incident.

11. On May 3, 1956, Huppert, accompanied Officers Cunningham, Owens, and Wolkow, filed charges in the County Court of Johnson County against Robertson for shooting a game bird from a highway on November 11, 1955.

12. Several witnesses testified that there were bad feelings by Huppert and Cunningham against the Game Commission and particularly against Robertson. Huppert and Cunningham denied these bad feelings, though Officer Cunningham admitted that he had been demoted prior to this incident and that he disagreed with the Commission regarding the demotion.

13. Raymond Morrissey, County Attorney of Johnson County, was advised by one or more persons after filing of the charges that the prosecution was started because of bad feelings against Robertson. This, together with his belief that evidence against Robertson was insufficient, is his reason for permitting Huppert to dismiss the charges.

14. The case was originally set for trial for June 20, 1956, but at the request of Robertson's Attorney was postponed until July 12, and then postponed again until August.

15. On July 2, 1956, Melvin Steen took office as Director of the Game Commission and as one of the first items of business, he was advised of the case pending against Robertson.

16. On July 6, Steen drove to Falls City, contacted Huppert and ordered him to dismiss the suit against Robertson and told Huppert that unless he did so that Huppert would be fired.

17. In the hearing, Steen did not indicate that he thought Robertson to be innocent. Rather, he gave as his reasons for ordering the charges dismissed: that the intent and purpose of R. S. 37-501 is to prohibit road hunting as such; that the policy of the Commission had been to arrest whenever someone was driving down

the road and either shot out of the car or jumped out and shot game birds along the fences; that it was not the policy to arrest where hunters were hunting in fields and approached the road from fields and began shooting; that the prosecution was brought because of prejudice against Robertson; that the County Attorney considered the evidence was insufficient; and that the prosecution arose from a fight within the Commission. Using hindsight in view of later developments, Mr. Steen admits that it would have been wiser for him not to have ordered a withdrawal of the charge.

18. On July 7, Huppert filed in Johnson County Court a motion to dismiss the charges against Robertson. The County Attorney made no objection to this procedure.

19. About three weeks after Huppert filed the motion for dismissal, Robertson phoned the Attorney General of Nebraska and asked him if the charges could be reinstated. The Attorney General advised him that they could not be.

20. The County Court of Johnson County never formally dismissed the complaint.

OPINIONS

The Committee has formed the following opinions:

1. There was a direct conflict in Robertson's and Huppert's testimony as to the positions of the various parties at the time of the shooting; a contradiction in Heinzelman's two statements concerning the shooting; and uncertainty of information offered to indicate Mr. Gilbert's version of the shooting incident. The evidence of Robertson's guilt was much stronger than that of his innocence. However, the weight of evidence was not sufficient to establish guilt beyond a reasonable doubt.

2. There was no proof of ill feeling by Officer Huppert against Robertson. Neither was there sufficient evidence to prove ill feeling on the part of William Cunningham and other employees of the Game Department against members of the Commission. To investigate this subject of prejudice more fully, the Committee felt that it would have had to enlarge the scope of its investigation which would have taken considerable more time. It was the Committee's decision to let the testimony and evidence presented at the hearing be the basis for any findings made.

3. Ill feelings by Huppert's superiors against Robertson and pressure by sportsmen may have been factors in Huppert's filing the charges against Robertson; however, Huppert was justified in filing the charges since he had witnessed the alleged offense. Officer

Huppert, as a witness, appeared to be sincere in his belief that an offense had occurred and that he was right in filing the charge. Failure of Huppert, on the day of the hunt, to mention the violation to anyone in the hunting party, except Heinzelman, raises some doubt as to the seriousness of the alleged offense. However, the Committee understands that a subordinate officer could feel reluctant about mentioning the incident in the presence of two superiors and one lay citizen.

4. There was competent evidence which would have justified the County Attorney of Johnson County in prosecuting the charges against Robertson.

5. The County Attorney of Johnson County was at least in part justified in permitting Huppert to withdraw the charges since from information he had received the case appeared to involve a fight between personnel in the Game Commission, and because he believed that Heinzelman could not be called as a witness in the case. Therefore, there may have been some justification in his belief that there was insufficient evidence to satisfy him as the prosecuting attorney.

6. The delay between November 11, 1955, and May 3, 1956, in filing the charges against Robertson was because Paul Gilbert, then Secretary of the Game Commission, had told Officer Cunningham, Southeast Nebraska Area Supervisor, that he was assuming responsibility for handling the case.

7. The charges against Robertson are now barred from prosecution since Robertson was not promptly brought to trial as required by Nebraska Statutes.

8. Steen, as Director of the Game Commission, was not justified in ordering Huppert to dismiss the charges, with the statement that he would have Huppert discharged from his job if he did not do so. However, Steen had just arrived in Nebraska; the offense appeared to him to be minor; he was advised that there was prejudice against Robertson by the conservation officers; and the charges seemed to arise from a fight within the Commission and a matter for his concern as Director. All of these factors provide some excuse for Steen's actions. Other testimony at the hearing indicated that Steen has been handling his office in a very capable manner. We do not doubt Mr. Steen's competence and ability in his professional field. We believe he has the respect of his employees, including those who testified.

9. Despite Mr. Steen's reasons for acting as he did, the Committee believes that it was improper for him to force Officer Huppert to file a motion for dismissal of the charges, as it was an interference by an administrative officer in a judicial proceeding.

RECOMMENDATIONS

1. We recommend that the case of STATE OF NEBRASKA v. ROBERTSON be considered terminated. The Committee regrets that it could not make a more clear-cut finding as to Mr. Robertson's guilt or innocence. However, the evidence was in such conflict that a definite finding could not be made.

2. We recommend that no further action be taken against Melvin O. Steen, other than a pointed reference to the findings and opinions herein contained with respect to his action in the case. The Committee recommends that Mr. Steen be given the backing he deserves in his important post to ensure a smoothly operating department.

3. We recommend that no further action be taken against Commissioner Don Robertson. However, we do recommend that this entire case be carefully regarded by all officials, in whatever subdivision of government they may serve, as a reminder of the high standard of conduct that is expected of them by the public.

4. We recommend and direct that the Game Commission take no reprisals against the subordinate employees by reason of their involvement in this case. We call attention to an Attorney General's Opinion, dated January 18, 1957, setting forth statutory provisions safeguarding officers, agents and employees of the Commission from removal or discharge without benefit of just cause fully stated and proved by a hearing as provided by law.

RESOLUTIONS

LEGISLATIVE RESOLUTION 40. Re: Legislative Council Study of Tax Laws.

Introduced by Terry Carpenter, 42nd District.

WHEREAS, the statutes of the State of Nebraska provide duties for taxing officials of the state and counties, and

WHEREAS, there may be violations of the statutes of the State of Nebraska by certain taxing officials, and

WHEREAS, if the statutes on taxation were fully carried out by taxing officials there would be more equitable assessment of property, both real and personal tangible and intangible property.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NEBRASKA LEGISLATURE IN SIXTY-EIGHTH SESSION ASSEMBLED:

1. That the Legislative Council appoint a committee of three members to make a study of the results being obtained by our present tax laws and determine if possible what violations are being made of the laws, which laws are not being followed, and what remedial amendments should be made to our present tax laws, and report to the next regular session of the Legislature.

2. The committee in making the study shall use the services of the Tax Commissioner of the State of Nebraska and his staff and report to the Tax Commissioner any violations of the statutes discovered, and the Tax Commissioner shall report such violations to the Governor as provided by Legislative Bill 80, Sixty-eighth Session, Nebraska State Legislature, 1957.

Referred to the Legislative Council Executive Board.

LEGISLATIVE RESOLUTION 41. Re: Legislative Council Study of Cash Funds.

Introduced by Terry Carpenter, 42nd District.

WHEREAS, many of the revenues known as cash funds are now earmarked for specific purposes and appropriated in estimated amounts, and

WHEREAS, this has the effect of relaxing the control of the Legislature over the expenditure of these funds, and

WHEREAS, this practice frequently results in the departments thus supported having more money to spend than would be apparent from an examination of the budget, and

WHEREAS, the proposal has been made that all cash funds be deposited in the general fund and all appropriations therefrom be made in fixed amounts, and

WHEREAS, such a change in procedure would require the amendment of all sections of the statutes which now provide for the deposit of specific revenues in specific funds, and

WHEREAS, such a change would further require an alteration in the procedure used in preparing the biennial budget.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NEBRASKA LEGISLATURE IN SIXTY-EIGHTH SESSION ASSEMBLED:

1. That the Legislative Council appoint a committee of seven members to make a study of:

   (a) the advisability of depositing all cash receipts in the general fund;

   (b) the sections of the statutes which would have to be amended if such change is to be made; and

   (c) the changes in budgetary procedure which would be required.

2. That the committee report its findings together with such recommendations for legislative action as it deems advisable.

Referred to the Legislative Council Executive Board.

LEGISLATIVE RESOLUTION 42. Re: Compensation for Postal Employees.

Introduced by John P. Munnelly, 8th District.

WHEREAS, the majority of postal employees receive a salary of approximately thirty-seven hundred dollars per year, and

WHEREAS, the top average salary of postal employees is approximately forty-four hundred ten dollars per year, and

WHEREAS, the standard of living costs have increased and the inadequate pay scale doesn't permit the postal employees to maintain the American standard of living, and

WHEREAS, there is now pending in the Congress bills which would increase the salaries of postal employees commensurate with existing costs of living.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NEBRASKA LEGISLATURE IN SIXTY-EIGHTH SESSION ASSEMBLED:

1. That this Legislature favors adequate compensation for postal employees, and respectfully memorializes the Congress of the United States to enact such legislation that will increase the wage scale of postal employees commensurate with existing costs of living.

2. That authenticated copies of this resolution be transmitted to the President of the Senate and the Speaker of the House of Representatives of the United States, and to each of the United States Senators and Representatives from Nebraska.

RESOLUTIONS

LEGISLATIVE RESOLUTION 43. Re: Legislation Regarding Criminal Jurisdiction over Servicemen

Introduced by Fay Wood, 24th District.

WHEREAS the members of our armed forces serving abroad, their civilian components and the dependents of each, are now subject to the criminal jurisdiction of more than fifty countries in which they may be on duty, by reason of the NATO Status of Forces Treaty, the Administrative Agreement with Japan, and Executive Agreements with other nations, and

WHEREAS these agreements penalize our servicemen for foreign service by depriving them of many of the rights granted by our Constitution, which they are sworn to defend, and

WHEREAS it is impossible for any serviceman accused of transgression in a foreign country to receive a fair and impartial trial because of the varying systems of jurisprudence which make it impossible for him to receive the protection of all of the rights and guarantees which our Constitution gives to every citizen, and because of the prejudice and animosity sometimes existing against our men, and

WHEREAS legislation has been introduced in both the Senate and the House of Representatives of the United States to direct the President to seek a modification of all such agreements so that the United States may regain exclusive jurisdiction over the members of its armed forces for all purposes, or if such a modification is refused, then to terminate or denounce the agreements according to the terms of each;

NOW, THEREFORE, BE IT RESOLVED by the Legislature of the State of Nebraska that the members of this body deplore the arrangements now existing which make service in our Armed Forces abroad a hazard by depriving our servicemen, their civilian components and dependents of each, of the rights and guarantees of our Constitution when they are stationed in other lands, and be it further

RESOLVED that we respectfully urge the Congress of the United States to immediately enact the legislation now pending or similar legislation which will secure a modification or denunciation of the provisions of the NATO Status of Forces Treaty and all other agreements which surrender to foreign nations criminal jurisdiction over our servicemen; and be it further

RESOLVED that copies of this resolution be sent to the President and the Vice President of the United States, to all Senators and Members of the House of Representatives of the United States, and filed with the Clerk of the Senate and the Clerk of the House of Representatives.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NEBRASKA LEGISLATURE IN SIXTY-EIGHTH SESSION ASSEMBLED:

LEGISLATIVE RESOLUTION 45. Re: Legislative Council Study of Highway User Taxation.

Introduced by John Aufenkamp, 2nd District.

WHEREAS, highway user revenues and motor vehicle registration fees have been collected in Nebraska for many years in gradually increasing amounts, and

WHEREAS, the various sources, amounts, and division of such revenues between the several subdivisions of government have been adjusted on numerous occasions, and

WHEREAS, the Council of State Governments and other study groups and users of highways have proposed types of apportionment of registration and related fees on trucks and buses in interstate service, and

WHEREAS, the Legislature of the State of Nebraska has given considerable attention to this important field of legislation in past sessions and will be faced with proposed legislation in this field at the next session.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NEBRASKA LEGISLATURE IN SIXTY-EIGHTH SESSION ASSEMBLED:

1. That the Legislative Council appoint a committee to make a study of existing laws and recommend to the next regular session of the Legislature any desirable changes which will provide for a better or more equitable basis of highway user taxation, including the sources, amounts, and distribution of highway user revenue and the apportionment of registration and related fees and payment of fuel taxes on trucks and buses in interstate service.

LEGISLATIVE RESOLUTION 46. Re: Armed Forces Pay Structure

Introduced by John E. Beaver, 12th District, upon recommendation of the Governor.

WHEREAS, There is now pending before the Congress of the United States legislation, including S. 2014, H. R. 7574, and H. R. 7642 which would change the method of computing the basic pay for members of the armed forces; and

WHEREAS, The military establishment is desperately in need of a means for attracting and retaining persons with scientific, professional, combat leadership, and management skills necessary to maintain a deterrent power during these times of advancing technology and threat of aggression; and

WHEREAS, The armed forces do not presently have the means to enter into competition for trained personnel urgently needed for the defense of this country, and a significant factor in their inability to do so is the inadequacy of the present compensation practices now in use; and

WHEREAS, The proposed changes in the military pay structure are based on merit rather than longevity, will bring military pay more in line with the pay standards of industry, will offer first termers greater re-enlistment incentive, and will relate pay more closely to the actual contribution of the individual in the service; and

WHEREAS, The change in pay structure, such as that proposed in S. 2014, H. R. 7574, and H. R. 7642 has the support of the Strategic Air Command and the 15th Air Force, as well as many other military leaders and organizations.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NEBRASKA LEGISLATURE IN SIXTY-EIGHTH SESSION ASSEMBLED:

1. That the Legislature of the State of Nebraska respectfully memorializes the Congress of the United States to take favorable action to revise the existing pay structure now in use in the armed forces along the lines proposed in S. 2014, H. R. 7574, and H. R. 7642.

2. That the Clerk of the Legislature is hereby directed to transmit copies of this resolution to the President and Vice President of the United States, the Speaker of the House of Representatives, and to each Senator and Representative from the State of Nebraska in the Congress of the United States.

Gentlemen:

I wish to register my opposition to L. B. 396.

I feel it would be a bill that would be very difficult to administer fairly. While the bill is only permissive, I believe you will all agree we must have uniform working conditions for all of our state employees.

I also believe that this bill would increase the budget and would cost the taxpayers of our state.

Message from the Governor

June 11, 1957

To the President, the Speaker
and Members of the Legislature

On June 10, 1957, Senator John Beaver introduced Legislative Resolution #46, directed to the Congress of the United States, requesting consideration of pending legislation which would change the method of computing the basic pay for members of the armed forces.

I have given considerable study to this problem and the proposed legislation, and urge your favorable consideration of Legislative Resolution #46.

This legislation is a result of the findings of a committee appointed by the Secretary of Defense, under the chairmanship of R. J. Cordiner, President of General Electric. The committee was made up of professional and technically trained personnel, experienced in this field.

Presently, it takes three years to train technical personnel for the Air Force, at a cost to the Federal Government of approximately $26,000. Upon completion of this training, in a normal four-year enlistment, a man serves one year as a highly trained and skilled member of this branch of the armed forces prior to his discharge. It is generally felt among those who are directly involved with this problem, that if these trained members of our armed forces were offered a higher rate of pay more of them would make a career of the military service.

The Department of Defense has estimated that this proposed legislation would result in a savings of up to five billion dollars, within just a few years. This would be the result of retaining trained personnel in the services and not having the turnover which presently exists.

This, of course, would automatically reduce the number of draftees required to produce the necessary levels of national defense.

I sincerely believe that if we solve the personnel problem we will be on the road to making a substantial savings in our national defense budget.

Respectfully submitted,

(Signed) Victor E. Anderson

REPORT ON RESOLUTIONS

June 12, 1957

Report of the Executive Board of the Nebraska Legislative Council on proposed Studies for the 1957-1959 interim period:

The rules of the Legislature now provide that all resolutions introduced calling for studies by the Legislative Council be considered by the Executive Board prior to being voted on by the entire Legislature. Below are the recommendations of the Board with regard to the resolutions which have been introduced.

In making its recommendations the Board has kept in mind that only 15 months will intervene between the end of the present session and the time when the studies will have to be completed and made ready for presentation to the entire Legislative Council. Therefore, the Board feels that this limited time should be given over to those problems of state-wide significance and concern. It seems much more desirable to make fewer and more intensive studies than to undertake a great number which could only be done superficially. Such a policy will also result in reducing the burden of each legislator in serving on study committees during the interim.

Following are the recommendations of the Board with regard to the resolutions which have been introduced directing that Legislative Council studies be made:

Studies Recommended

1. **Legislative Resolution 21.** This resolution calls for a study of the laws pertaining to installment loans and the various aspects of retail credit transactions. These problems have never been subjected to an intensive study in Nebraska, and judging by the volume of legislation introduced during recent sessions on these matters, it would seem to be appropriate to make one at the present time.

2. **Legislative Resolution 29.** Under this resolution a committee of the Council would study the use of the secondary boycott by unions in Nebraska and the possible effect they have on segments of the state's economy. Since there have been many charges and counter-charges with regard to this matter during recent months, the Board feels that it would be advantageous to hear both sides of the question to determine if legislative remedies are called for.

3. **Legislative Resolution 33.** This proposed study of the regulation and licensing of the different healing arts has already been given the support of most of the interests affected. Because each session of the Legislature is presented with many bills in this field, and because much controversy and conflicting information has arisen, it is believed that a study could do much in the presentation of the available facts and in clearing the air somewhat.

4. **Legislative Resolution 35.** This would continue a study started in 1955. The interest among the sportsmen of the state in the last fish and game study was extensive, it resulted in several legislative changes, and it is believed that there is a demand for its continuation. This time the emphasis is to be placed on the recreational areas in the state and their development.

5. **Legislative Resolution 36.** This resolution would continue the ground water study inaugurated in 1955. While progress was

made as a result of the last study, the continued importance of this resource to the economy of the state requires that the work be continued.

6. **Legislative Resolution 37.** This resolution would set up a committee to study the problem of conservation and regulation in the oil and gas industry in the state. The growing importance of this industry, and the failures to date of agreeing upon any basic conservation legislation, suggests the need for a thorough study of the entire situation.

7. **Legislative Resolution 41.** This resolution would lead to a study of the method of budgeting cash funds in Nebraska. Much of this money is now earmarked for specific functions leaving the Legislature with little control over it. It has been suggested that all revenue should be placed in the General Fund and then appropriated to each spending agency. This problem should be explored.

8. **Legislative Resolution 44.** This would set up a committee to survey the various retirement programs affecting public employees which have been established in Nebraska. The piecemeal inclusion of various groups of employees in retirement plans separately set up for them has created some lack of uniformity and other problems. The technical work on this study will be performed by a trained actuary.

9. **Legislative Resolution 45.** This study will consider the collection and distribution of highway user revenues. Certainly this is one of the most important and continuous state problems. The study will also look at the method adopted by several of the Western states in pro-rating fleet truck fees through an interstate compact.

10. **Budget Study.** This has not been assigned by legislative resolution, but is made during each interim period as directed by the Executive Board. This budget study and analysis will be continued as usual.

Studies Not Recommended

1. **Legislative Resolution 25.** This resolution contemplated a study of higher education in Nebraska, and especially of those problems growing out of the increasing numbers of students attending college. The Board feels that much of the inquiry called for by this resolution can more easily be made by the governing bodies of the institutions, that policy questions are involved which they alone must resolve, and that there is no widespread demand for such a study.

2. **Legislative Resolution 30.** This resolution in part duplicates that study the Board is recommending under L.R. 45. The other problems mentioned in the resolution are within the field of policy to be determined by the Railway Commission and not the Legislature. That part of the resolution concerning truck registration fees can be covered under the other study (L.R. 45).

3. **Legislative Resolution 38.** The Board is of the opinion that nothing constructive could be accomplished by this study. The issue of broadening the tax base through the adoption of a sales and/or income tax has been discussed, debated, and considered as thoroughly in this state as any ever has been. Prior Council tax studies have given attention to a broadened tax base, and a recent study by Dr. Schmidt of the University has considered some of the items mentioned in the resolution.

4. **Legislative Resolution 39.** The Board sees no use in going to the expense and taking the time required to study the issue, if it is one, of trading stamps in Nebraska. There is no appreciable demand for it, many communications have been received by the Board opposing it, the 1955 attempts to legislate on the subject well illustrates the opinion of the public with regard to trading stamps, and the Board doubts if a study committee could actually determine the effect of giving stamps on the business structure of the state.

5. **Legislative Resolution 40.** The purpose here would be to set up a committee of three members to study the operation of our present tax laws and determine where violations were occurring. In the first place, the committees of the Council are not intended to be law enforcement agencies, and the State Tax Commissioner is responsible for the administration of the tax laws. He also has the necessary personnel and organization to accomplish this purpose.

Furthermore, the last Council tax-study committee considered this very problem, met at great length with the Tax Commissioner on violations of the tax laws and how to correct them, and recommended remedial legislation to the present Legislature. The granting to the Tax Commissioner of authority to promulgate rules and regulations with the force and effect of law, and to enforce them, was one of the principal legislative answers to this problem.

6. **Legislative Resolution 47.** This would create a committee to study the probation and parole system established by L.B. 568. The Board is of the opinion that the system should be given some opportunity to begin functioning prior to being studied. The next

15 months would see little more than the mere beginnings of the program.

7. **Legislative Resolution 48.** This calls for research into the details and possible merits of the proposed Reed-Walter Amendment to the Constitution of the United States. Such a project does not call for the creation of a Council committee, and the Board has already directed the Director of Research to gather the information called for in the Resolution.

8. **Legislative Resolution 49.** This resolution asks for a fact-finding study of the University with respect to its entire operation. It is understood by the Board that the primary purpose here is to clarify the use and administration of the various cash funds of this institution. This would be covered in the study assigned by Legislative Resolution 41.

9. **Legislative Resolution 50.** This resolution calls for a study of the present trade practices in the oil industry in the state, especially as they pertain to local price discriminations and monopolies. The Board again feels that if there is widespread feeling among the people of the state that such practices are being followed, it is up to the law enforcement agencies to take action and not a committee of the Council.

The present law provides that the Attorney General may conduct investigations of any companies doing business in the state to determine if price discriminations are practiced (R.R.S. 1943, 59-804). Charges of such practices should be taken to the official now charged with enforcing the law.

10. **Legislative Resolution 51.** This resolution calls for a study of the full crew law with particular reference to diesel-powered trains. This is a matter which involves only a small group of people in the state who want this law to apply to diesel trains. It is difficult to see what need there is for a Council committee and study. If it is felt that such trains should be included in the law it is a simple matter to amend it. There is nothing to study.

The Research Department of the Council stands ready to provide information to any person or group interested in this or any other problem, and would be happy to do so.

The Board has given lengthy and detailed consideration to all these resolutions proposing studies. It has picked those which it sincerely feels to be of the greatest state-wide interest and concern and from which positive accomplishments could reasonably be expected. It is not possible, nor is it necessary, to attempt a study of every conceivable problem during the short interim period.

Some choice must be made and the Board believes that its recommendations will lead to a constructive program for the 1959 Legislature. Respectfully submitted by

Senator Otto H. Liebers, Chairman
Senator Charles Tvrdik, Vice-chairman
Senator John Beaver, Speaker
Senator William A. McHenry, Committee on Committees

UNANIMOUS CONSENT—Print Letter

Mr. President: I ask unanimous consent that the following letter of intent concerning LB 584 be made a part of the record and that it be shown that the letter was read and adopted prior to the final reading of LB 584. (Signed) Terry Carpenter

No objections. So ordered.

Letter of Intent

The attention of the next regular session of the Legislature is respectfully directed to the provisions of L.B. 584 of the 68th Session. It was the intention of a majority of the 68th Session to delete from L.B. 584 subsection (2) of Section 2 of the bill, which reads: "(2) the date on which it was bottled or packaged clearly appears on its container", but such language was inadvertently left in the bill and was not noticed until the same was on final reading on the day prior to adjournment of the 68th Session, at which time it was too late to make the necessary change in the bill. Since the provisions of the bill do not become operative until July 1, 1959, it was the sense of the Legislature that this error could best be called to the attention of the next regular session, so that the error can then be corrected to conform to the intention of the 68th Session.

(Signed) Terry Carpenter

LEGISLATIVE BILL 584.

Attorney General's Report

June 19, 1957

Dwight W. Burney
Lieutenant Governor
State of Nebraska
State House
Lincoln, Nebraska

Dear Sir:

In our opinion it would now be constitutionally proper to move to reconsider the action of the legislature in failing to pass L. B. 284 with the emergency clause. Under your rules such a motion will require 26 votes.

If the matter is handled in the above fashion, we do not believe it would be necessary to again read the bill. If the motion carries, L. B. 284 can again be submitted to the Legislature just as though final reading of the bill had just been completed.

Very truly yours,

CLARENCE S. BECK
Attorney General

(Signed) Clarence A. H. Meyer
Deputy Attorney General

Message from the Governor

June 19, 1957

To the President, Speaker and
Members of the Legislature:

Legislative Bill 133 is returned to you without my signature.

I am returning the bill for the following reasons:

(1) L. B. 133 purports to create uniformity in the procedure of the administrative agencies of the State. In fact, it simply creates an additional administrative procedure.

(2) It is my belief that uniformity in this field is greatly to be desired. In my opinion, however, L. B. 133 does not give

> the State of Nebraska this uniformity and therefore I feel this matter should have further study and consideration.

Respectfully submitted this 19th day of June, 1957.

(Signed) Victor E. Anderson

RULES COMMITTEE REPORT

The Rules Committee met on June 18 and made the following recommendations:

(1) That Rule 10, Section 13, page 19, be amended to read as follows:

"Sec. 13. Reconsideration. Who may move. Time for motion. When a question has been decided, it shall be in order for any member voting with the prevailing side, or not voting, to move a reconsideration thereof. A motion to reconsider must be made on the same day the original question was decided or on the next legislative day, except when it be to reconsider the vote on a bill which lacked the constitutional majority on a final reading. In such case, it must be made on the same day the original question was decided or on one of the next three legislative days. If the Legislature shall refuse to reconsider, or upon reconsideration shall affirm its first decision, no further motion to reconsider shall be in order unless by unanimous consent."

(2) That Rule 10, Section 15, page 20, be amended to read as follows:

"Sec. 15. Reconsideration. Vote necessary. For its adoption a motion to reconsider shall require the vote of a majority of the elected members, except:

(a) Where such motion be to reconsider the vote on a bill which lacked the constitutional majority on a final reading, then a three-fifths vote shall be required for adoption.

(b) Where such motion be to reconsider the vote on a bill which lacked the constitutional majority on a final reading with the emergency clause attached, but which received the constitutional majority with the emergency clause stricken and the purpose of the motion is to again add the emergency clause, then a two-thirds vote of the elected members shall be required for adoption."

(3) That Rule 11, Section 1, page 21, be amended to read as follows:

"Sec. 1. Introduction. Upon call for the introduction of bills, any member or any standing committee to which bills are referred for consideration may introduce one or more bills. No bill shall be introduced unless it has been approved as to form and draftsmanship by the legislative bill drafter. Such approval shall also set forth the name of the member or members of the executive department, if any, who requested assistance in the preparation of the bill. No bill so requested by a member or members of the executive department, other than the Governor, shall be introduced except by one of the standing committees to which bills are referred by the reference committee. Except with unanimous consent or a vote of a majority of the elected members, no bill shall be introduced which bears the names of more than one member. The name of the introducer shall be followed by his Legislative District."

(4) That Rule 12, Section 8, page 24, be amended to read as follows:

"Sec. 8. Select File. Consideration by the Legislature, in review on select file, wherein any of the following motions shall be in order:

a. A motion to approve or reject any or all of the changes recommended by the Chairman of Enrollment and Review

b. A motion to adopt a unanimous consent amendment, to which no objection shall be offered.

c. A motion to recommit to the proper standing committee.

d. A motion to recommit to the general file for one or more specific amendments. If such a motion is adopted, the bill shall be transferred forthwith to the head of the general file where consideration of the specific amendment shall be the first order of business on that file. After disposition of the amendment, the bill may be re-advanced to Enrollment and Review for review, amended further, indefinitely postponed, or recommitted to the proper standing committee. If the bill is re-advanced, it shall be given prior consideration by the Chairman of Enrollment and Review and returned to the select file as soon as possible and placed at the head of that file; Provided, if the bill is not amended, indefinitely postponed, or recommitted, it may be advanced to Enrollment and Review for engrossment.

e. A motion to postpone indefinitely.

No bill shall be considered initially on select file until three legislative days after its advancement from general file to Enrollment and Review: Provided, that the amendments so recommended shall not be read by the Clerk except upon the request of a member of the Legislature.

Notwithstanding any other provision contained in this section, if the Enrollment and Review committee returns a bill to select file from engrossment, then only the specific enrollment and review amendments may be considered.

(5) That Rule 12, Section 12, page 25, be amended to read as follows:

"Sec. 12, Final Reading. Consideration on final reading and passage when the bill shall be read at large with all amendments thereto before the vote is taken (Const. Act. III, Sec. 14): Provided, that at anytime before the roll call shall have begun on final reading of the bill, it shall be in order to move:

a. To recommit the bill to Enrollment and Review to correct an error and for re-engrossment.

b. To recommit the bill to the proper standing committee, with or without instructions.

c. To recommit the bill to Select File for specific amendment, which amendment may be adopted by a vote of a majority of the elected members: provided, however, if the proposed amendment be to add the emergency clause, it may only be adopted by a vote of two-thirds of the elected members.

(6) That the action of January 18, 1957 be reversed in accepting the recommendation contained in Legislative Council Re-

port 70 concerning the handling of resolutions proposing studies by the Legislative Council and the following amendment be adopted:
